[06-63]
Action

FCC Students Rosanna Spicer and Dina Haigounian, and FCC Instructor Gerry Bill, addressed the Board regarding the recommendation before the Board to grant exclusive pouring rights to Coca-Cola. They spoke about environmental and human rights abuses by Coca-Cola in foreign countries, and about offering students freedom of choice on campus by not granting monopoly status. Bernard Navarro, FCC American Indian studies instructor, spoke about the idea of multiculturalism and the responsibility to other cultures.

Mr. Brinkley spoke regarding the benefits of granting exclusive pouring rights on a contractual basis. In exchange for the pouring rights, the District is compensated with supplemental funding and products for student programs and services. Coca-Cola and Pepsi are the two major companies that can provide a wide range of beverages. Of the two proposals provided to the Board, Coca-Cola gives the highest level of support.

Ms. Smith asked if there is a policy for doing business with companies in regard to human rights. She said that it is a crucial issue and that, as an educational institution, we need to think about how it relates to the community we serve. She asked what the pros and cons of the policy would be, and what is the next step.

Mr. Patterson said he agrees with Ms. Smith's perception and he supports that. He said that the District should not be doing business with companies that violate human rights. He asked about the decision to prefer one company over the other. He expressed that the issue was important and that we need to look at the source to see which are civil rights abusers.

Ms. Barreras reminded the Board that she had brought up the issue with Coca-Cola several months ago and agreed with the concerns the students expressed.

Ms. Barreras made a motion to table the item, but was not seconded.

Mr. Smith asked if the decision had to be made at the meeting because he felt it was important that more research be done on this issue so the Board can make an informed decision.

Mr. Brinkley said that based on the Board's concern the issue will be researched, additional information provided, and brought back to the Board at another meeting.

PRESENTED TO BOARD OF TRUSTEES

SUBJECT: Consideration to Adopt Resolution
 Authorizing Inter-fund Transfer

ITEM NO. 06-146G

EXHIBIT: Resolution

Background:

The funding of Other Post Employment Benefits (OPEB) has received much press lately due to Governmental Accounting Standards Board (GASB) Statement Numbers 43 and 45. At the 2006 Board retreat the administration provided the Board with the most current actuarial information based upon the need to begin funding this negotiated commitment for SCCCDC employees and current retirees. The District's report was prepared by Milliman, an actuarial firm, to determine the liabilities for District employees as of July 1, 2005. Based on this actuarial report the District's Present Value of Benefits is \$48,755,922, the Unfunded Actuarial Accrued Liability is \$31,578,274, and the Annual Required Contribution (ARC) is \$2,803,677 based upon a calculation of a 30-year amortization at a 4% discount rate.

Actuarial studies are required to be completed on a regular basis, as required by GASB 43/45, so the District can evaluate how it is addressing its Other Post Employment Benefits (OPEB). Although there is currently no mandate to begin funding this negotiated obligation, it is prudent business practice to begin funding the ARC. Current actuarials place this contribution at approximately \$2.8 million, as previously stated. The actuarial report is required to be updated at least every two years at which time the ARC will be recalculated along with the other details of the study. The Board has adopted a budget which provides for the ARC to be funded beginning with 2006-07. The administration is recommending that the initial contribution for this obligation be made to a District internal revocable trust fund set up to specifically account for Retiree Health Benefits. In order to properly account for the inter-fund transfer of monies between funds, the California Education Code requires a Resolution authorizing said transfer. The Resolution provides direction for the Fresno County Office of Education to complete an inter-fund transfer as follows:

<u>From</u>	<u>To</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Retiree Benefits Fund	\$2,803,677	Compliance with GASB 45

ITEM NO. 06-146G

Page 2

Recommendation:

It is recommended that the board of Trustees:

- a) approve Resolution No. 06-146G authorizing an inter-fund transfer in the amount of \$2,803,677 from the General Fund to the Retiree Benefits Fund; and
- b) authorize filing said Resolution with the Fresno County Office of Education.

RESOLUTION NO. 06-146G
AUTHORIZING INTER-FUND TRANSFER

WHEREAS, the Board of Trustees has authorized establishment of the General Fund, Capital Projects Fund, Bookstore Fund, Scholarship and Loan Fund, Student Financial Aid Fund, Co-Curricular Fund and Retiree Benefits Fund for the purpose of properly accounting for revenues and expenditures; and

WHEREAS, in order to maintain consistent accounting practices, it will be necessary to transfer \$2,803,677 from the General Fund to the Retiree Benefits Fund;

NOW, THEREFORE, BE IT RESOLVED that Resolution No. 06-146G be approved authorizing the transfer of \$2,803,677 from the General Fund to the Retiree Benefits Fund.

I. Executive Summary

Introduction

This is the Compliance Review of the County of Fresno's Treasurer's Investment Pool Portfolio for the period ended September 30, 2006, pursuant to California Government Code 53646. The report has two primary objectives: (1) to provide information regarding portfolio holdings as to compliance with California Government Code Sections 53601 and 53635, as well as the County Treasurer's Statement of Investment Policy and (2) to detail portfolio characteristics of the portfolio's investment holdings.

Quarterly Overview of Markets:

During the quarter, the U.S. Treasury yield curve remained flat while yields decreased across the entire maturity spectrum. At both the August and September 2006 meetings, the Federal Reserve kept its target for the federal funds rate at 5-1/4 percent. The Committee indicated that economic growth had moderated from its strong pace earlier in the year, partly reflecting a gradual cooling of the housing market and the lagged effects of increases in interest rates and energy prices.

Treasury Yield Curve Changes

Money-Market Statistics (all data in %)

Yields	6/30/06	9/30/06
Certificates of Deposit--90-Day	5.43	5.32
Certificates of Deposit--180-Day	5.52	5.33
Commercial Paper (nonfinancial)-- 30-Day	5.22	5.30
Quarterly Returns		
Salomon Brothers Treasury Bills	1.16	1.24
Merrill Lynch US Treasuries 1-3 Yrs	0.65	1.97

Source: ITI, Federal Reserve

As indicated on the previous page, during the third quarter of 2006, yields decreased across the entire maturity spectrum. The yield on one-year Treasury Bonds decreased 30 basis points to 4.91%, while the yield on thirty-year Treasury Bonds decreased 42 basis points to 4.77%. The spread between the one-year Treasury and the 30-year Treasury ended the quarter at 14 basis points, increasing from 3 basis points at the end of last quarter. During the quarter, yields on 90-day Certificates of Deposits decreased 11 basis points while 180-day maturity yields decreased 19 basis points. Commercial Paper moved higher in the 30-day maturities by 8 basis points.

Portfolio Position

The portfolio maintained a weighted maturity of less than 16 months. The County of Fresno Investment Policy (revised December 2004) Section 11.0 recommends a portfolio of securities with a weighted average maturity not to exceed 550 days. Keeping the portfolio within this maturity range minimized its exposure to potential interest rate shifts that can occur in the mid-maturity sectors of the yield curve. The portfolio was oriented towards high quality with 66.9% of the portfolio's assets invested in risk-free instruments.

Compliance with California Government Codes 53601 & 53635:

The Investment Portfolio is compliant with the **California Government Codes 53601 and 53635**.

Compliance with Treasury Investment Pool Statement of Investment Policy:

The Statement of Investment Policy is more stringent than the California Government Code. As of 9/30/06, the Treasurer's Investment Pool portfolio complied with its Statement of Investment Policy.

Please refer to the next section of the report for a more detailed evaluation of the portfolio in relationship to the California Government Code and the Treasurer's Investment Pool Statement of Investment Policy.

Portfolio Characteristics

The Treasury Pool's portfolio characteristics are indicative of a plan exhibiting a high degree of quality with short-term maturities.

- As of 9/30/06, the portfolio had a market value of \$1.8 billion with an average dollar-weighted quality of "AAA."
- Approximately 66.9% of the portfolio's assets are invested in securities with virtually no credit risk (i.e., US Treasuries, US Agencies, and cash).
- The dollar weighted average life of the pool is 474 days.
- 14.8% of the portfolio at cost matures within 30 days, 22.6% matures within 90 days, and 38.1% within 180 days (see Appendix for further details).

Based on its relative high quality and near-term liquidity, and assuming no significant changes to pool funding policies, the Treasury Investment Pool is well positioned to meet its expenditure requirements over the next six months.

BlackRock Liquidity Funds: updated 05/12/06; prospectus 2/21/06

To determine T-Fund's net asset value per share, the daily valuation of portfolio securities is performed in accordance with BIMC's matrix pricing policy.

BIMC uses a matrix pricing methodology that is based on pricing tiers called matrix codes, and time cells that extend out the yield curve.

The matrix codes represent how a security trades relative to other securities of the same type. Security prices (yields) represent the bid side of the market and are indicative of where Blackrock would expect to be able to sell that security.

Prices of repurchase agreements come from Bloomberg. BlackRock also checks the data against Broker/Dealers who are major participants in specific money market areas. IDC provides prices from Treasury bills, notes, and bonds.

Portfolio valuations are performed daily. Portfolio managers who are members of the matrix pricing team check data for accuracy. This data feeds the fund accounting system that determines the fund's net asset value per share. The variance to a \$1.00/share is noted and reported to the portfolio manager daily.

Depending on market conditions, the number of matrix codes and the spread between tiers may change. BlackRock reviews these factors periodically and change them as conditions warrant.

Fidelity: updated 7/31/06; prospectus 05/30/06

PRESENTED TO BOARD OF TRUSTEES

DATE: December 5, 2006

SUBJECT: Consideration to Approve 2007-08
Residence Hall Rate, Reedley College

ITEM NO. 06-149G

EXHIBIT: None

Background:

It is necessary that the residence hall rental rate at Reedley College be established early in order that the information may be included in the college publications so that incoming students for 2007-08 can be properly informed. Because of an increase in the cost of operations, it is appropriate to raise the fees for the 2007-08 academic year. The current rental rate is \$2,342 (\$1,171 per semester), plus a nonrefundable contract fee of \$130. It is proposed that the 2007-08 residence hall rental rate be established at \$2,480 (\$1,240 per semester), plus a nonrefundable cleaning and damage fee of \$100 and a non-refundable activity fee of \$35.

Fiscal Impact:

Dormitory Fund Revenue Increase: \$23,460.

Recommendation:

It is recommended that the Board of Trustees establish the residence hall annual rate for 2007-08 at \$2,480, plus a nonrefundable contract fee of \$135.

PRESENTED TO BOARD OF TRUSTEES

DATE: December 5, 2006

SUBJECT: Consideration to Approve 2007-08 Schedule
of Materials Fees, Fresno City College and
Reedley College

ITEM NO. 06-150G

EXHIBIT: Materials Fee Schedules

Background:

Title V of the California Code of Regulations allows districts to charge instructional materials fees for materials which are of continuing value to the students outside of the classroom setting, including, but not limited to, textbooks, tools, equipment, clothing, and those materials which are necessary for a student's vocational training and employment.

Many of the non-credit courses and various credit courses provide programs that are appropriate for assessment of an instructional materials fee. These programs include such items as woodworking projects, flower arranging, ceramics projects, and welding projects. Because these materials are of continuing value to the students and in most cases are retained by the students, it is appropriate to charge a materials fee. It should be noted that the fee cannot exceed the actual cost of the materials provided and cannot be a prerequisite to taking the available class. In order to provide courses of this nature, the District must rely upon the students paying the expenses for the value of the personal items; therefore, it is necessary for the Board of Trustees to adopt an instructional materials fee schedule for assessment of the appropriate fee.

Fiscal Impact:

None

Recommendation:

It is recommended that the Board of Trustees approve the 2007-08 Schedule of Materials Fees for Fresno City College and Reedley College.

PRESENTED TO BOARD OF TRUSTEES

DATE: December 5, 2006

SUBJECT: Consideration to Adopt Resolution of
Intention to Dedicate Pipeline Easement
to Fresno Metropolitan Flood Control
District, Willow/International Center

ITEM NO. 06-67

EXHIBIT: Resolution

Background:

As part of the on-site development of the Willow/International Center, a storm water inlet and piping system was constructed on the site and connected to the Fresno Metropolitan Flood Control District (FMFCD) system. The main storm water pipeline, which runs from just south of International Avenue across the site to Behymer Avenue, will carry the storm water generated on the site and a portion of the storm water from International Avenue. The Flood Control District has agreed to operate, maintain, repair, remove and replace the storm water pipeline. In return the District must grant a 20-foot-wide pipeline easement to the FMFCD.

State statutes require the District to take action at two separate Board meetings. The first action, which the Board is being asked to take at the December 5, 2006, meeting, is to adopt a Resolution of Intention to Dedicate Easement. The Resolution provides public notice that the District will be considering the dedication of an easement to the FMFCD on January 9, 2007, and that public comment will be solicited prior to the Board considering and taking action on the dedication. The second action occurs on January 9, 2007, when the Board holds a public hearing regarding the dedication and considers adopting a Resolution Authorizing Dedication of Easement. Enclosed is Resolution No. 06-67 stating the District's intention to dedicate an easement to the FMFCD. This Resolution requires a roll call vote and approval of at least two-thirds majority.

Fiscal Impact:

None

Recommendation:

It is recommended that, upon a roll call vote, the Board of Trustees:

ITEM NO. 06-67

- a) approve Resolution No. 06-67 signifying the District's intention to dedicate a 20-foot-wide storm water pipeline easement to the Fresno Metropolitan Flood Control District for operation, maintenance, repair, removal and replacement of the pipeline at the Willow/International Center; and
- b) schedule a public hearing for this matter at 4:30 p.m. on Tuesday, January 9, 2007.
