Chancellor's Report

Dr. Crow stated that the District is anxiously waiting for the May Revise, which is due to be released around May 14. An item of particular interest to the District is the inclusion of equalization in the budget. State Center is ranked 61 out of 72 districts in the State in the amount of apportionment received per full-time equivalent student. There is also talk that the COLA may increase to 2.4%. We haven't received information on how the additional COLA will be funded. The administration will prepare a summary of the May Revise after we have an opportunity to analyze it.

The District will be hosting recently appointed California Community Colleges Chancellor Mark Drummond on Wednesday, May 19. The visit will begin with a tour of the OAB, followed by a lunch meeting of Central California community college presidents. At 2:30 p.m., we will host an open forum with Chancellor Drummond for several of our constituency groups in Health Sciences 150 on the FCC campus. The visit is part of a commitment made by the new Chancellor to visit campuses and speak first hand with all of the stakeholders.

The District will also be hosting a meeting at 7 a.m. on Tuesday, May 18, to update business leaders and educators on the need to develop business and education partnerships. Featured speakers will be Claude Laval, co-chair of the Water Cluster, which has implemented many of the tenets outlined in the Regional Jobs Initiative, and Dan Walters, syndicated political columnist. The meeting will be held at TorNino's.

## I. Executive Summary

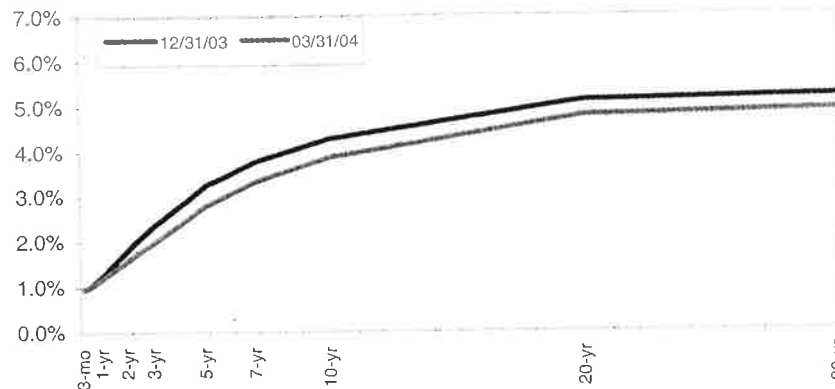

### Introduction

This is the Compliance Review of the County of Fresno's Treasurer's Investment Pool Portfolio for the period ended March 31, 2004, pursuant to California Government Code 53646. The report has two primary objectives: (1) to provide information regarding portfolio holdings as to compliance with California Government Code Sections 53601 and 53635, as well as the County Treasurer's Statement of Investment Policy and (2) to detail portfolio characteristics of the portfolio's investment holdings.

### Quarterly Overview of Markets:

During the quarter, the US Treasury yield curve flattened as intermediate and long term yields decreased; dampening returns for holders of shorter term bonds. At the March 16<sup>th</sup>, 2004 meeting, the Federal Reserve left rates unchanged in order to help stimulate the economy.

As indicated on the previous page, during the first quarter of 2004 mid-term and long-term yields decreased while short-term rates remained steady. The yield on one-year Treasury Bonds decreased 6 basis points to 1.20% for the quarter while the yield on thirty-year Treasury Bonds decreased 31 basis points to 4.87%. The spread between the one-year Treasury and the 30-year Treasury ended the quarter at 367 basis points, decreasing from 392 basis points at the end of last quarter. During the quarter, yields on 90-day Certificates of Deposits decreased 3 basis points while 180-day maturities decreased in yield by 6 basis points. Commercial Paper moved lower in the 30-day maturities, by 1 basis point. The 90-day yield for Commercial Paper was not available.

## **Portfolio Position**

The portfolio maintained a weighted maturity of less than 18 months. The County of Fresno Investment Policy (revised December 2003) Section 11.0 recommends a portfolio of securities with a weighted average maturity not to exceed 550 days. Keeping the portfolio within this maturity range minimized its exposure to potential interest rate shifts that can occur in the mid-maturity sectors of the yield curve. The portfolio was oriented towards high quality with 55.7% of the portfolio's assets invested in risk-free instruments.

## **Compliance with California Government Codes 53601 & 53635:**

The Investment Portfolio is compliant with the **California Government Codes 53601 and 53635.**

## **Compliance with Treasury Investment Pool Statement of Investment Policy:**

**The Statement of Investment Policy** is more stringent than the California Government Code. As of 3/31/04, the Treasurer's Investment Pool portfolio complied with its Statement of Investment Policy.

Please refer to the next section of the report for a more detailed evaluation of the portfolio in relationship to the California Government Code and the Treasurer's Investment Pool Statement of Investment Policy.

## **Portfolio characteristics**

The Treasury Pool's portfolio characteristics are indicative of a plan exhibiting a high degree of quality with short-term maturities.

- As of 3/31/04, the portfolio had a market value of \$1.7 billion with an average dollar-weighted quality between "AA+" and "AAA".
- Approximately 55.7% of the portfolio's assets are invested in securities with virtually no credit risk (i.e., US Treasuries, US Agencies, and cash).
- The dollar weighted average life of the pool is 466 days.
- 21.1% of the portfolio at cost matures within 30 days, 33.6% matures within 90 days, and 42.5% within 180 days (see Appendix for further details).

Based on its relative high quality and near-term liquidity, and assuming no significant changes to pool funding policies, the Treasury Investment Pool is well positioned to meet its expenditure requirements over the next six months.

**Fidelity:** updated 04/17/03; prospectus 04/01/04

Fidelity performs daily mark-to-market of the holdings in the Fidelity Institutional Money Market Fund: Government Portfolio using IDC as its primary source. In addition, Fidelity manages the Portfolio in strict compliance with the rules and guidelines of Rule 2a-7 of the Investment Company Act of 1940 which governs the credit quality, maturity, and oversight of all registered money market funds.

**Morgan Stanley Dean Witter:** repurchase agreements are custodied by Bank of New York, which verifies the collateral valuation; prospectus 10/25/03

**UBS Financial Services:** repurchase agreements are custodied by JP Morgan Chase Manhattan Bank, which verifies the collateral valuation

**BlackRock Provident Institutional T Fund:** updated 3/24/04; prospectus 4/18/03

To determine T-Fund's net asset value per share, the daily valuation of portfolio securities is performed in accordance with BIMC's matrix pricing policy.

BIMC uses a matrix pricing methodology that is based on pricing tiers called matrix codes, and time cells that extend out the yield curve.

The matrix codes represent how a security trades relative to other securities of the same type. Security prices (yields) represent the bid side of the market and are indicative of where we would expect to be able to sell that security.

Prices of repurchase agreements come from Bloomberg. BlackRock also checks the data against Broker/Dealers who are major participants in specific money market areas. Meuller provides prices from Treasury bills, notes, and bonds.

Portfolio valuations are performed daily. Portfolio managers who are members of the matrix pricing team check data for accuracy. This data feeds the fund accounting system that determines the fund's net asset value per share. The variance to a \$1.00/share is noted and reported to the portfolio manager daily.

Depending on market conditions, the number of matrix codes and the spread between tiers may change. BlackRock reviews these factors periodically and change them as conditions warrant.

**Citigroup:** repurchase agreements are custodied by Bank of New York, which verifies the collateral valuation

Authorizing Notice of Intent to Establish  
2004-05 Appropriations Limit (Gann)

ITEM NO. 04-103

---

EXHIBIT: Resolution

---

Background:

In November 1979 the voters passed Proposition 4 (Gann), which effectively places an appropriations limit on each public entity within the State. The appropriations limit base was derived from the amount an entity had appropriated in its budget during the 1978-79 fiscal year. The base is annually adjusted upward in accordance with the inflationary allowance relating to the Consumer Price Index, as well as by population increase. Under Senate Bill 1352, enacted by the Legislature to implement Proposition 4, it is necessary that each public entity establish its appropriations limit for a given year prior to the last day of the previous fiscal year. It is further necessary that the governing body provide fifteen (15) days in which the public may examine the documentation used in arriving at the appropriations limit. Further legislation modified the method for computing the limit but the notification provisions remain the same.

The enclosed Resolution is intended to notify the public that the appropriations limit for this District for 2004-05 has been established and will be officially approved at a regular meeting of the Board to be held on June 29, 2004.

Recommendation:

It is recommended that the Board of Trustees adopt Resolution No. 04-103, NOTICE OF INTENT TO ESTABLISH AN APPROPRIATIONS LIMIT FOR THE 2004-05 FISCAL YEAR.

RESOLUTION NO. 04-103

NOTICE OF INTENT TO ESTABLISH AN APPROPRIATIONS LIMIT  
FOR THE 2004-05 FISCAL YEAR

WHEREAS, on November 6, 1979, the People of the State of California adopted Proposition 4, the Gann Initiative, which added Article XIII B to the State Constitution; and

WHEREAS, said Article and Section 7900, et seq., of the Government Code require this Board to establish, by Resolution, at a regular or special meeting, its appropriations limit for the 2004-05 fiscal year; and

WHEREAS, said Article and Section 7900, et seq., of the Government Code further require this Board to notify the public at least fifteen (15) days prior to the holding of such meeting.

NOW, THEREFORE, BE IT RESOLVED as follows:

1. The public is hereby notified that at 4:30 p.m., on June 29, 2004, the governing board of the State Center Community College District will hold a meeting at 1525 East Weldon Avenue, Fresno, California, to establish its appropriations limit for the 2004-05 fiscal year.
2. The public is further notified that the documentation used in the determination of said appropriations limit is available to any person who wishes to examine or inspect the same, either prior to, during, or after said meeting.
3. The Chancellor of this District or his designee is hereby directed to post a copy of this Resolution at least fifteen (15) days prior to June 29, 2004, in order to inform the public of the matters contained herein.

SUBJECT: Public Hearing on the District's Initial Response to the Contract Reopener Proposals Presented by the California School Employees Association, Local 379

ITEM NO. 04-108

---

EXHIBIT: None

---

Background:

The California School Employees Association (CSEA) submitted their initial reopener proposals and these proposals were sunshined before the public at the last regularly scheduled Board meeting. The District, in accordance with the provisions of the Government Code, will sunshine its initial proposals to the CSEA.

CSEA and the District agreed to reopen Article 31-Health and Welfare, Article 34-Pay and Allowances and one article of choice by each party. Government Code Section 3547 sets forth the "sunshine" provisions of the Rodda Act. The Board is required to hold a public hearing on the reopener proposal of the employee group. Following is the District's reopener proposal:

**ARTICLE 31  
HEALTH AND WELFARE BENEFITS**

ARTICLE 31, HEALTH AND WELFARE BENEFITS shall remain unchanged except for the following amendments:

Section 1: HEALTH INSURANCE

- C. ~~Any health insurance plan(s) offered to unit members shall first be mutually agreed to by the District and the CSEA.~~ **The District may in its sole discretion determine the health insurance carrier and health insurance plan providing the plan benefits are substantially similar to those which were in effect during the 2003-04 school year.**

**ARTICLE 34  
PAY AND ALLOWANCE**

ARTICLE 34, PAY AND ALLOWANCES shall remain unchanged except for the following amendments.

Compensation for members of the Classified Bargaining Unit shall include but not be limited to:

1. salary
2. step and longevity
3. salary/wage-fringe impact
4. health and welfare benefits
5. additional costs as related to the implementation of the Agreement

The State Center Community College District recognizes its obligation to bargain over salary and benefits to employees represented by the Exclusive Representative. **However, the District has not received sufficient information with regard to funding and has not completed its budget development process in order that an initial compensation offer can be made. The District's prudent fiscal operation understandably requires a brief deferral on the bargaining issues concerning budget expenditures until reliable funding information is available and a budget is fully developed. A more specific compensation offer will be propounded as soon as the District is in receipt of such information and has completed the budget process.**

Article of choice:

**ARTICLE 28-VACATION PLAN**

ARTICLE 28, VACATION PLAN shall remain unchanged except for the following amendment:

- D. If an employee does not use his/her full annual vacation, the amount earned in the immediate preceding year not taken shall accumulate and be carried over for use in the next year **up to a maximum total accumulation of 22 days at which no additional vacation is earned or accrued.**

Recommendation:

At this point the Board should open the meeting for public comment on District's initial reopener proposal to the California School Employees Association #379. Following the Public Hearing, no action is necessary on the part of the Board.

Background:

The Personnel Commission held a public hearing regarding their proposed budget for 2004-05 at its meeting May 17, 2004. Following the Public Hearing, the Personnel Commission approved a budget of \$309,843.00 plus any increases for mandated personnel costs (step increase and benefit increases of \$5,057.00), for a total of \$314,900.00. This represents an estimated increase of \$5,057.00 over the 2003-04 budget.

According to Education Code 88073 the Personnel Commission will forward their adopted budget (\$314,900.00) to the County Superintendent of Schools for action. The District may object or challenge the Personnel Commission budget by submitting its objection to the County Superintendent of Schools. If the County Superintendent of Schools proposes to reject the budget as submitted by the Commission, he shall, within 30 days after the Commission's submission of the budget, hold a Public Hearing on the proposed rejection within the affected District. He shall have informed both the Commission and the Governing Board of the date, time and place of the hearing. He may after such Public Hearing either reject, or, with the concurrence of the Commission, amend the proposed budget. In the absence of agreement between the Personnel Commission and the County Superintendent, the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the Commission.

The Personnel Commission will be forwarding a budget of \$314,900.00 to the Fresno County Superintendent of Schools and this amount will be included in the District's budget.

Fiscal Impact:

The 2004-05 budget will increase by estimated cost of \$5,057.00.

Recommendation:

If there is no objection to the proposed budget, the Chancellor will notify the Fresno County Superintendent that there will be no objection to the Personnel Commission budget for 2004-05.

ITEM NO. 04-110

Background:

The County Superintendent of Schools has called the governing board member election for November 2, 2004, and has forwarded to the District a formal notice of the consolidation of the election with elections of other school districts. It is necessary that the Board of Trustees adopt certain specified resolutions, as follows, in connection with the election:

- A. Specifications of the Election Order - The enclosed resolution form for this item was included with the formal notice from the County Superintendent of Schools about the consolidation election. The Board adopted a similar resolution prior to the previous governing board election.
- B. In the Matter of Charges to Candidates of Board Member Elections - The Board of Trustees has previously adopted a bylaw pertaining to the cost of printing, handling and mailing a candidate's "Statement of Qualifications." This resolution should also be adopted and provision made for candidates claiming an inability to pay for this service.
- C. In the Matter of Board Member Selection in Case of Tie Vote - This 1&2 resolution form was also included with the formal notice from the County Superintendent of Schools. It allows the Board to choose one of two procedures to be used in the event of a tie vote: (1) determine the winner by lot; or (2) call a runoff election. In view of the excessive expense of a special election, it is recommended that the Board choose the first alternative.

SUBJECT: Consideration of Bids,  
LAN/WAN Phase IV Renovations

ITEM NO. 04-111

EXHIBIT: None

Background:

Bid #0304-21 is for all labor and materials necessary to complete Phase IV of the District's Wide Area Network (WAN) and Local Area Network (LAN) infrastructure project. This project, as a continuation of Goal 30 of the 1998-2003 Master Plan, continues to improve the District's Wide Area and Local Area Network infrastructure to support instructional, administrative, and student service activities. The work of the Phase IV Renovations project includes: 1) extension of the existing site pathway foundation previously installed in Phases I, II and III to provide a new physical infrastructure at Fresno City College; 2) renovation of the telecommunications infrastructure in the Language Arts, Theatre, Music/Speech, Home Economics/Arts, Social Science, Administration, Business Education, Cafeteria, Student Center, Gymnasium, and Health Science buildings at Fresno City College, as well as the District Office; 3) a fiber-optic link between the Media Center and the Gymnasium and Cafeteria buildings; 4) a new copper backbone between the telephone rooms and telecommunications rooms for the buildings listed above; and 5) preliminary placement of infrastructure for wireless networking at the Fresno City College campus. This phase, when completed, will expand the existing network foundation to all buildings on the Fresno City College campus with the exception of Technical and Industrial (which will be funded by State Bonds), Operations, Child Development and those facilities on the east side of Blackstone Avenue. This expanded network continues to provide a continuous state-of-the-art, districtwide network to support demands for increased speed, capacity, connectivity and reliability of our integrated information management system.

The time allowed for completion of this project is eleven months. Because of this extended timeframe, the network equipment portion of Phase IV will be bid separately at a later date. This allows us the opportunity to specify the most current versions of the network equipment available at a time appropriate for installation. The remaining portions of the overall LAN/WAN Project that may be bid at a later date include the infrastructure to the remaining buildings, as listed above, an expanded build-out of wireless services, emergency generators for the continuous functioning of critical network components, and a fiber-optic connection underneath Blackstone Avenue.

Because of the significant impact of this current LAN/WAN Phase IV Renovations Project, bidders were directed to submit extensive qualifications and technical criteria with their bid response. The bid responses and additional requested information are currently being evaluated by the engineer and the District's technical and administrative staff.

Funding for this project will be provided by Measure E General Obligation Bonds. The engineer's estimate for this project is \$2,000,000.00.

Bids were received from seven (7) contractors as follows:

Background:

With the passage of Measure E in November 2002, the State Center Community College District established a Citizens' Bond Oversight Committee, as required under law (Local School Construction Bonds Act of 2000) and the Citizens Bond Oversight Committee Bylaws adopted by the Board in 2003. The membership year for the Committee begins July 1 of each year. It is now appropriate for the Board to appoint members to the Citizens' Bond Oversight Committee for a two-year term commencing July 1, 2004, through June 30, 2006. The Committee Bylaws call for staggered two-year terms, and no member of the Committee may serve more than two (2) consecutive terms. Inasmuch as the District is completing its first term of membership, it is appropriate to appoint members from the existing Bond Oversight Committee for a second term.

The administration polled the existing community members to see if they were willing to serve an additional term. The administration recommends the appointment of the following Committee members to the State Center Community College District Bond Oversight Committee:

- Terrence J. Flanagan
- John Hutson
- Donald G. Larson

Recommendation:

It is recommended that the Board of Trustees appoint Terrence J. Flanagan, John Hutson, and Donald G. Larson to the Citizens' Bond Oversight Committee for a two-year term commencing July 1, 2004, through June 30, 2006.

Background:

With the acquisition of property for the development of the Willow/International campus, the District is required under Section 24.2(d) of Title 49 of the Code of Federal Regulations to identify the housing needs of the affected occupants and to determine the assistance that will be made available to the property occupants. The obligation to relocate the three tenants and the business is part of the District's responsibility under eminent domain law. The purpose of this housing survey is to identify comparable replacement housing within the same community for the affected occupants. The housing survey was performed by Crossroads R/W and was submitted to the District for approval on May 21, 2004.

The current renters at the Willow/International site occupy a single-family residence and two mobile homes, all located at 10309 North Willow Avenue. The comparables selected are representative of the available residences on the market and have rental rates that are representative of the rent the occupants will be required to pay upon moving from the District site. The survey found that there are no two-bedroom mobile homes or two-bedroom single-family residences in the area, so a comparable rental rate of \$1,050 per month per residence was established for a three-bedroom single-family residence. The rental rates currently paid by the tenants are \$770 per month for the single-family residence and \$560 and \$545 per month for the mobile homes. When comparing the tenant payments with comparable rent and utility costs, as required by statute, it was determined that the residents would be eligible for maximum assistance as follows:

3-bedroom, 2-bath Single-Family Residence	\$15,456
2-bedroom, 1-bath Mobile Home	24,276
2-bedroom, 1-bath Mobile Home	<u>24,906</u>
	\$64,638

The District is also estimating \$20,000 to relocate the business from the site. Total relocation costs for the three residences and the business are estimated to be \$84,638

The District is also required to prepare a Relocation Impact Statement and Last Resort Housing Plan for the Willow/International site. This Relocation Impact Statement will be available for public comment and will be presented to the Board for acceptance at the next regular meeting. This Relocation Impact Statement will identify the relocation assistance dollars necessary to relocate the current tenants and the existing business.

It is appropriate that the Board of Trustees accept this Housing Valuation Survey as a current representative value of comparable properties. This survey is valid through August 21, 2004, and may be updated at that time if changes in the housing market demand revisions.

Recommendation:

It is recommended that the Board of Trustees accept the Housing Valuation Survey for the Relocation of Tenants at the Willow/International project site.

It has been determined that comparable replacement housing will be utilized primarily in the City of Clovis, California. This area will allow the households to relocate within the same community which will provide comparable or improved community amenities such as access to public facilities, public infrastructure, public transportation, shopping and schools.

The Comparables selected are representative of the available, comparable two- and three-bedroom single-family residences on the market and have rent rates that are representative of the rent displacees will be required to pay to rent comparable replacement properties as of the date of their gathering. These Comparables are intended to be representative of the current market.

This Housing Valuation Survey is submitted for approval on May 21, 2004. The following Comparables have been established by this survey and are being submitted to State Center Community College District for approval. There were 14 three-bedroom single-family residences listed for rent in the Clovis over a one-week period. The average rent rate for those units was \$1,083 per month. It is the responsibility of this housing survey to determine the cost of comparable and available two-bedroom mobile homes and three-bedroom single-family residences in Clovis. However, mobile homes are not typically available for rent in Clovis. Area mobile home parks reported that renting mobile homes was not permitted in the parks. Therefore, the survey was expanded to consider the cost to rent two-bedroom single-family residences in Clovis. No two-bedroom single-family residences could be found for rent during this search period. In general, the homes available for rent in the area are newer homes with at least three bedrooms. Therefore, in order to provide housing for the three affected households, this survey considered the cost for each of the households to rent three-bedroom single family residences in Clovis. While this represents a betterment for the two households living in mobile homes, it provides for decent, safe and sanitary dwellings that are equal to or better than the dwellings being affected by the project.

With a comparable rent rate of \$1,050 per month, the three households will have approximately 14 homes from which to choose each month.

The above listed dwellings are an example of comparable dwellings that are and will be available for the displaced households throughout the project.
