## 2013-14 TENTATIVE BUDGET

Board of Trustees Meeting<br>June 4, 2013<br>Office of the Chancellor

Fresno City College - Reedley College
Willow International Community College Center - Madera Center - Oakhurst Center

## HH Chancellor's Message

For the past few years, California's community colleges have been faced with diminishing and unpredictable sources of revenue from the state. Yet, in spite of these challenges, the State Center Community College District's (SCCCD) Board of Trustees, faculty, classified professionals, and administrators have remained committed to providing access to the highest quality educational opportunities and support services for the citizens in the communities we serve.

Economic experts believe there are indications of a nationwide economic recovery; however, they also predict California's recovery will be slow. The passage of Proposition 30 by the voters provided some greatly needed fiscal relief, but the funding per capita student remains low, and the forced reductions in the number of students SCCCD can serve will not yet be fully restored. Therefore, we will continue to advocate aggressively and relentlessly in Sacramento and beyond, making the case that community colleges
are and will continue to be critical in addressing California's challenges.

The SCCCD 2013-2014 budget, as presented in the pages that follow, was developed to continue to meet the educational, economic, and workforce development needs of the communities we serve, and to reflect the following guiding principles established by the Board of Trustees:

- Focus on student equity, success, and completion;
- Align programs, services, and staffing to the California Community Colleges’ core mission (CTE, basic skills/ESL, transfer) and the District Strategic Plan;
- Strategically manage enrollment to enhance student access; and
- Ensure sound financial practices and financial stability/sustainability (Accreditation Standard III.D.)

SCCCD remains committed to the educational mission, values, vision, and goals as outlined in the 2012-2016 District Strategic Plan, and the 2013-2017 Colleges/Centers Strategic Plans. We will continue to
provide strong fiscal stewardship for the citizenry we serve, and utilize the district's resources in a fiscally prudent manner. Finally, we will seek to expand, enhance and strengthen our partnerships with business, industry, and community organizations to leverage resources through collaborative efforts as we rebuild and strengthen our local economy and workforce.

Deborah G. Blue, Ph.D.

Budget

## 2013-14 BUDGET OVERVIEW

## Introduction

One of the most significant responsibilities of a community college district is the preparation, presentation, and approval of the annual budget. A district's budget not only serves as a report to our constituents regarding the utilization of available tax dollars and other funding sources, it also serves as a resource allocation document to support the district's planning goals, and priorities for the ensuing school year. The State Center Community College District administration is confident the enclosed budget documents reflect the effective utilization of financial resources to meet the educational goals of our district.

## State Budget Overview

In January 2013 the governor released his proposed 2013-14 state budget which included a balanced budget, due in large part to the passage of Proposition 30. Proposition 30 will provide the state with a limited-term revenue stream by increasing the sales tax rate by $0.25 \%$ for the next four years and increasing personal income taxes on high income earners for the next seven years. The proposed budget provides for partial restoration of apportionment
funding, addressing the state's "wall of debt', and includes several new initiatives/proposals. The cornerstone concept of this budget is the governor wants the community college system to take advantage of this temporary source of funding by reevaluating services and processes and redesigning community colleges. Business as usual will no longer suffice.

With the passage of Proposition 30 and the potential restoration of state funding for apportionments come with it the pent up demands and needs of a system and state that has been fiscally devastated over the past several years. Strategic and systematic appraisals of needs and resources will be at an all-time high as competition from differing factions gather to debate the merits of their needs/wants over other competing groups. Based on the Governor's proposal, the impacts to California community colleges are:

- $\$ 196.7$ million in undesignated apportionment restoration,
- $\$ 179$ million "deferral buy-back,"
- $\$ 300$ million block grant to take over Adult Education from K-12,
- $\$ 15.7$ million for Apprenticeship,
- $\$ 49.5$ million for energy efficiency from Proposition 39, and
- $\$ 16.9$ million for on-line/distance education.

One of the most unique features of this proposed budget is the undesignated apportionment funding restoration of $\$ 196.7$ million. Typically the governor designates the type and amount of funding for apportionments. The community college system had requested $\$ 200$ million each for categorical restoration of student support programs and Cost-ofLiving Adjustment (COLA) and $\$ 120$ million for enrollment restoration. The governor has combined all three requests into one block grant for $\$ 196.7$ million and is proposing the Board of Governors (BOG) to determine the amount for each category. Historically, the allocation of funding process has been the domain of the Legislature.

In addition, the governor has proposed the community college system take over the Adult Education program currently administered by the K-12 system. The original amount allocated to the K-12 system to address Adult Education was $\$ 1$ billion but over the past few years the K-12 system has reallocated $\$ 700 \mathrm{~m}$ to address other needs. Only $\$ 300$ million is allocated to the community college system for the Adult Education program.

Proposition 39 was also passed by the voters last November which increased revenues to the state by closing the tax loophole for multistate businesses in how they report income to the state. Approximately half of these new funds would be dedicated to energy efficiency projects. For 2013-14 the community college system would receive $\$ 49.5$ million with funding to be allocated on a per full-time equivalent student (FTES) basis.

The governor's proposal additionally earmarks $\$ 16.9$ million for distance education related programs and services. The governor wants to take advantage of on-line education technology with the community college system. This funding would be used to (1) create a "virtual campus" to increase statewide student access to 250 new courses delivered through technology, (2) standardize a single, common, and centralized delivery and support infrastructure for all courses delivered through technology and for all colleges, and (3) expand the options for students to access instruction in other environments and earn college credit for demonstrating knowledge and skills through credit by exam.

The state and national economic situation appears to be continuing on a path of slow recovery. California's revenues for the current fiscal year are currently up, estimated as much as $\$ 4.5$ billion, from
the governor's budget estimates. College administrators are anxiously awaiting the May Revise to see how the governor will address this new information. There are concerns the legislature will want use this new found money to address social programs and services that have been cut over the past few years. The governor is currently stressing restraint and to use the new found revenue to address the long-term needs and to buying-down the debt of the state.

As you can see, the governor has proposed a rather ambitious agenda for 2013-14. He will now need to get support for his proposed programs and services with the legislature as it traditionally has been their responsibility to pass the budget.

## 2013-14 Guiding Principles for Budget Development

Following are the guiding principles in the development of the 2013-14 budget approved by the Board of Trustees.

- Focus on student equity, success, and completion;
- Align programs, services, and staffing to the California Community Colleges' core mission
(CTE, basic skills/ESL, transfer) and the District Strategic Plan;
- Strategically manage enrollment to enhance student access; and
- Ensure sound financial practices and financial stability/sustainability (Accreditation Standard III.D.)

## 2013-14 District Budget Summary

In the development of the budget over the years, the Board has been conservative and forward thinking in its understanding and direction by focusing on maintaining access for students and employment stability for staff. The Board further understands and accepts that the economics of the state are fluid and tremendous fluctuation can occur between the good and bad economic times. Examples include the severe state economic downturns that occurred between fiscal years 2002-03 and 2004-05 and then again between 2008-09 and 2012-13, which are now showing some signs of a slow economic recovery.

The district has consistently developed responsible budgets that balanced fiscal strengths and weaknesses over several years rather than riding the fiscal roller coaster with all the implications for ups and downs in student access and the employment cycles of hiring
and reducing permanent staff. Additionally, the district recently received notification that Willow International Community College Center is a candidate for college status in spite of the funding constraints of the state these past few years. The current state economic situation, while more optimistic, has created an overly optimistic impression the District has sufficient funds to address the pent up demands of the past few years.

The district continues to serve more students than funded from the state and is proactively managing enrollment as state funding is gradually being restored. Additionally student success, the new priority for community colleges is requiring the system to rethink its policies and procedures as new regulations and requirements are continuously changing to meet this goal. The Board of Trustees remains committed to providing managed student access at $2 \%$ over credit FTES funding (approximately 25,618 credit FTES).

The district will need to systematically and strategically address the physical unmet needs of the past (deferred maintenance, district operations equipment, and campus projects) as well as addressing obligations and commitments (retiree health benefits, long-term disability, vacation pay, pension reform, etc.) to provide a holistic approach to
budgeting when the resources are relatively more plentiful.

Moreover, since education is a heavily labor intensive industry, our salaries and benefits over the past few years has grown, approaching nearly $90 \%$ of our general fund budget. This trend is not a long-term sustainable barometer for a healthy district. The district will need to phase-in over the next few years an increased share of operational costs to maintain our aging facilities. During fiscal year 2013-14, the district and colleges plan to utilize some of our reserves to address the much needed scheduled maintenance, safety, technology, instructional and non-instructional equipment, and student success initiatives that have been deferred during the economic challenges of the past few years.

Based on the governor's proposed budget, staff has not committed the district's share (estimated to be approximately $\$ 4.7$ million) of the $\$ 196.7$ million state apportionment block grant until we receive better information as to how these funds will be allocated. Until such time, staff will be budgeting this potential funding in a contingency expense account.

Additionally, in the tentative budget, staff has not incorporated any revenues or expenditures for the Adult Education, Apprenticeship, Proposition 39, or

Distance Education proposals since there is not enough information available to determine how much we are going to potentially receive or how we are going to address these new initiatives. Once more information is available, we will include these new initiatives and any others in the 2013-14 final budget.

With a general fund budget of approximately $\$ 169.1$ million and a total budget in excess of $\$ 247.2$ million, including $\$ 2.7$ million in capital expenditures (capital outlays and Measure E projects), the district recognizes its importance as a shareholder in the educational opportunities of the numerous constituency groups. The district further recognizes the importance of assisting the communities in the economic development needed to provide employment opportunities and prosperity for the region as it struggles out of the economic recession of our region and community. Fortunately, this is only the tentative budget and the May Revise and the adopted 2013-14 State Budget will provide us additional guidance for the final budget in September.

## BUDGET CALENDAR

The timelines and requirements for publication and availability of a community college district's budget are specifically outlined in the California Code of Regulations. These requirements include the scheduling for approval of the district's tentative budget on or before July 1 and subsequent adoption of a final budget prior to September 15. In addition, a public hearing must be held prior to the adoption of the final budget with appropriate publication in a local newspaper making the proposed budget available for public inspection.

The district will receive more information from the state in the Governor's May Revise made available in mid May 2013. The May Revise provides an updated state revenue analysis and a better look at the forthcoming state budget, but due to the lateness of the revise, the information is not available for incorporation into the district's tentative budget prior to its June 4, 2013 approval. Additionally, the state budget is anticipated to be approved by the Legislature and signed by the Governor by the end of June. Once that information is available the tentative budget will be revised as necessary to reflect the adjustments to the original state budget proposal. The final 2013-14 State Center Community College

District budget will be presented to the Board of Trustees for adoption on September 3, 2013.

The process of developing a community college district budget is an ongoing function and must be addressed by the Board and administration throughout the academic year. In order to effectively develop a fiscal document that reflects the goals and objectives of the district, the budget process must include a welldefined budget calendar outlining when each component of the budget is to be completed and the responsibility for completion.

The following budget calendar for preparation of the 2013-14 budget was adopted by the governing board at its February 5, 2013, meeting.

State Center Community College District Budget Development Calendar 2013-14

[^0]District
Organization

## DISTRICT ORGANIZATION

The 2013-14 general and auxiliary fund budgets were developed to reflect the mission and educational programs and services of the State Center Community College District. The programs of the district are consistent with the mission of the California community colleges.

## California Community Colleges Mission

The mission of the California community colleges is to offer academic and vocational education at the lower division level for recent high school graduates and those returning to school. Another primary mission is to advance California's economic growth and global competitiveness through education, training, and services that contribute to continuous workforce improvement. Essential functions of the colleges include: basic skills instruction, English as a second language, adult noncredit instruction, and support services that help students succeed.

## State Center Community College District Mission

State Center Community College District is committed to student learning and success, while providing accessible, high quality, innovative educational programs and student support services to our diverse community by offering associate degrees, university transfer courses and career technical programs that meet the academic and workforce needs of the San Joaquin Valley and cultivate an educationally prepared citizenry.

## District Organization

State Center Community College District expects to provide educational services to approximately 44,000 students on its seven campuses. An organization of this size must have a well-defined structure in order to operate successfully on a day-to-day basis. The district is governed by a sevenmember Board of Trustees, each elected to a four-year term by the voters of specific trustee areas within the district. In 2010, the district changed the method for election of trustees. Rather than "from trustee area" elections, i.e. elections in which "each governing board member [is] elected by the registered voters of the entire school district...but reside in the trustee area which he or she represents [,]" the district now holds "by-trustee area" elections, i.e. elections in which "one or more members residing in each trustee area [is] elected by the registered voter of the particular trustee area [.]" Cal. Educ. Code sections 5030 (b) and (c). Additionally, in 2012 the boundaries of each of the trustee areas were adjusted as required by Cal. Educ. Code section 5019.5 to account for the 2010 Census. In November 2012, a second "by-trustee area" election was held for four trustee areas, thereby completing the transition to by-trustee area elections. The following organizational structure is in effect for the 201314 school year:

## State Center Community College District

2013-14 Organizational Chart

Funding
Methodology

## FUNDING METHODOLOGY

## Introduction

The financial support for the California community college system has evolved over the years as have the colleges and the purpose for its services. Since the inception of the Community college system in 1907, there have been numerous changes in the method of distributing state and local funds for the support of community colleges. In 2006-07 Legislation was passed and signed into law (SB 361) that provides a base funding level, entitled a foundation grant, for each college or center plus a per FTES funding amount of at least $\$ 4,367$ to bring all districts in the system to the $90^{\text {th }}$ percentile in funding per FTES. This new model was developed in consultation with the State Chancellor's Office, the consultation council, community college chief business officials, and the board of governors.

In 1988 California voters approved Prop. 98, an initiative that amended Article XVI of the state constitution and provided specific procedures to determine a minimum guarantee for annual K-14 funding. The constitutional provision links K-14 funding formulas (which include community colleges)
to growth factors including state revenues and student population. These various factors determine the percent of the state of California budget dedicated to K -14 education.

## Funding Models Under SB 361 of 2006

Under SB 361 a district receives a foundation grant for each college or center of varying amounts based on the size of the college and center. The foundation grant amount is augmented by a per FTES funding level. The apportionment calculation components of the foundation grants and per FTES funding level are adjusted each year by the following:

1. COLA (cost of living adjustment)
2. Stability (for districts experiencing decline)

Growth funding in the model becomes simply the state funded FTES growth allocation for a district times the per FTES funding level for the year.

Additionally, the financing of a community college district in the system is provided in accordance with education code section 58870, which states that for
each district the state shall subtract from the total computational revenue a district's local property tax revenue and $98 \%$ of the enrollment fees collected by the district. The remainder shall be apportioned for each district by the state of California. This means the actual amount of revenue provided to a community college to operate is not impacted by the wealth of the local area's property tax base or the amount of enrollment fees collected since they are deducted from the state's calculated apportionment for each district.

## Student Fees

The amount of enrollment fees and other studentrelated fees is strictly controlled by the state of California. Over the past three fiscal years, the enrollment fee has seen significant increases. The fee for the fall 2012 semester was $\$ 36$ per unit and increased to $\$ 46$ per unit for the summer 2012 semester (where it currently remains).

Outlined in the graph is a history of community college per unit enrollment fees:

COMMUNITY COLLEGE PER UNIT ENROLLMENT FEES

Following are the tuition and fee costs for California community colleges compared to other state higher education institutions:

## California's Community Colleges - Efficient and

 EffectiveThe California community colleges represent an outstanding financial and educational value for the largest and most diverse student body in the world. Based upon 2012-13 information provided by the Community College League of California (CCLC),
the community college system revenue is $\$ 5,447$ for instruction per full-time equivalent student, $43 \%$ of the same expenditure as the California State University (CSU) system's cost of \$12,729 and 22\% of the University of California (UC) system's cost of $\$ 24,909$. This maximization of educational resources allows the state to serve more students and to preserve more resources for other important services.

Source: Fast Facts 2013, Community College League of California
Not only does the system provide a high level of cost effectiveness, but California's community colleges continue to excel in all areas of the system's mission. In 2011-12 16,246 community college system
students transferred to UC; 51,050 transferred to CSU ; and many others transferred to other four-year institutions. Community college transfer students earn grade point averages and graduation rates at universities at levels comparable to students who enroll as freshmen at CSU or UC.

The mission of the California community college system and related responsibilities and expectations have expanded to not only meet academic and vocational education needs, but also to play an active role in the economic development activities of communities and to serve as a leader in the societal transition from welfare to work. With the current economic situation facing the citizens of the United States and California in particular, the California community college system is positioned to play an increasingly important role in assisting in the training and retraining of California's workforce to meet the new demands placed on our economy.

While the community colleges have been among the most effective and efficient higher education systems in the world, additional resources are needed to maintain the high level of service to the state's population. Currently, several challenges exist for the system including obtaining the necessary resources to
meet the growing student demand for services and responsibilities of the system to educate the people in California in an ever-changing state, national, and world environment.

## STUDENT ENROLLMENT TRENDS

The California community college system, consisting of 72 districts and 112 colleges, currently serves 2.4 million students per year.

Since a significant majority of a community college's funding is based upon full-time equivalent students (FTES), it is important to understand enrollment trends both in the system and at SCCCD.

## California Community College Enrollment and FTES Trends

Over the past five years the California community college system has undergone significant funding reductions. In 2007-08 the total number of FTES for the system was 1.18 million and at the 2012-13 First Principal Apportionment Report (P-1) it declined to 1.11 million ( $\sim 70,000$ FTES decline) resulting in relatively no overall growth in this five-year period. The system has received several workload reductions in this timeframe, which addresses why the system has remained essential flat in enrollment over this period of time. However, if funding were available from the state the system would grow substantially as demand for classes' statewide remains high. One
concern is now that Proposition 30 has passed and it looks like it will restore lost funding, will the past few years of course reductions have a long term impact on students who have deferred their educational dreams.

For the 2013-14 Tentative Budget, we anticipate a flat budget with no restored apportionment funding until the Legislature and the Governor decide how to distribute the $\$ 196.7$ million block grant in apportionment funding.

## SCCCD FTES Trends

State Center Community College District has traditionally maintained FTES growth at a level higher than statewide numbers. However, during the same five-year period mentioned previously, SCCCD decreased from 27,605 FTES to 25,986 FTES or $-5.9 \%$. State Center was not able to maintain enrollment the same as the statewide enrollment trend for two reasons: 1.) The state's continued reduction in funding resulting in workload reductions to the community college system including State Center; and 2.) with the weakness of the national and California economy, the district reduced its FTES
enrollment goals to more closely match the funding level from the state. The district still continues to serve more students than funded, but needs to carefully manage enrollment until state funding is fully restored. State Center is planning to serve 25,618 credit FTES in 2013-14, $2 \%$ more than its funded cap of approximately 25,116 Credit FTES.

The tentative budget was developed with an approximate $\$ 7.6$ million shortfall. The district, colleges, and centers adjusted their budgets accordingly and have taken into consideration balancing managed student access as one priority with the California Community Colleges' new priority of student success. Additionally, the district strives to provide additional educational and job training skills for those students so inclined to enter or reenter the workforce.

## Student Population

The geographic area served by State Center Community College District represents a significantly diverse population. Following are graphic displays of the makeup of the district's student population:

SCCCD STUDENT ETHNICITY

Source: SCCCD Office of Institutional Research (FY 2011-12)

## SCCCD Future Funded Growth

There appears to be some restored workload growth due to the passage of Proposition 30. We will need to be strategic in allocating these funds since Proposition 30 funding is limited to seven years. In any case, when growth funding does become available, the individual district growth rates will have been based upon four primary factors: 1.) the rate of change in the adult population of the local districts; 2.) the
change in high school graduation rates occurring in district boundaries; 3.) adjustments for underserved areas; and 4.) a blended rate. The district will strive to maintain managed student access, which in 2013-14 is estimated to serve approximately 502 Credit FTES beyond the state funding level, or approximately $\$ 2.3$ million in unfunded FTES.

The district has historically experienced significant FTES growth, but recent shortfalls in funding from the state has made it impossible to maintain levels of service equal to the demand. Community colleges have usually seen growth during slower economic times. With the passage of Proposition 30 and some areas of economic recovery, it appears we have started to turn the corner on the economic recession and are
in a better position looking forward. The challenge for the district will be to strategically manage restored funding for district priorities against the pent up demand of the past few years of reduced funding. The district has been successful and is optimistic about its ability to provide the educational opportunities to its students during this transitory period both financially and programmatically as the system shifts from a student access system to a student success system.

With similar farsightedness, State Center Community College District has weathered these transitory periods better than many districts in the system. It will continue to meet the educational needs of the community as we recover from this economic crisis.

## STATE CENTER COMMUNITY COLLEGE DISTRICT BUDGET SUMMARY

Formed July 1, 1964, State Center Community College District (SCCCD) will serve approximately 44,000 students on its seven campuses in 2013-14. The district comprises approximately 5,580 square miles servicing the greater Fresno area including Fresno, Madera, and portions of Kings and Tulare counties. The district encompasses 17 high school and unified districts. SCCCD is one of 72 community college districts in California and includes two of the 112 colleges, as well as three centers and other community-based offerings.

Fresno City College, Reedley College, Willow International Community College Center, Madera Center, the Career Technology Center, and Oakhurst, plus a number of community outreach programs in nondistrict owned facilities, are governed by and comprise SCCCD. Each campus has a distinct identity and unique program offerings. The district offers higher education opportunities to thousands of students who might otherwise be unable to attend classes beyond the high school level. Associate of arts and science degrees are offered in a wide variety of subjects in addition to many vocational programs.

The district serves a population area in excess of one million residents characterized by a lower-thanstate average income and socioeconomic makeup. These demographics create unique challenges to the district in meeting the needs of the communities it serves. State Center looks forward to continuing to meet the needs of its growing and diverse service area.

The district is governed by a seven member Board of Trustees elected from seven by-trustee areas. Regular board meetings are held at $4: 30$ p.m. on the first Tuesday of the month. Meetings are held in various locations throughout the district with meeting locations adopted by the Board of Trustees each December.

Following is a budget summary by object code for the 2013-14 fiscal year for State Center Community College District:

## DISTRICT OFFICE/OPERATIONS <br> BUDGET SUMMARY

The district office provides many administrative and delivery services available to the various campuses of the State Center Community College District. The district offices, including the operations department, are located adjacent to the Fresno City College campus in central Fresno. In addition to the central administration, the district office provides most of the personnel/human resources functions, management information systems/data processing functions, purchasing services, accounting and payroll functions, legal services, curriculum coordination, public relations, and coordination of district grants and Foundation activities.

In 1996-97 the operations services, including maintenance, grounds, police, construction, transportation, warehouse, utilities, and safety, were
reorganized into centralized services. The purpose of the reorganization was to better service the various district sites, become more cost effective by utilizing personnel and coordinating contracts and outside purchases, and provide greater consistency in programs for the various campuses, as well as the community at large. The district operations department includes approximately 64 full-time employees in the budget, as well as the utilization of part-time staff, to provide the services outlined above.

The district office/operations budget includes personnel and operational costs to provide delivery of the various services to the district campuses.

Following is a budget summary by object for the 2013-14 fiscal year for the district office/operations:

## FRESNO CITY COLLEGE <br> BUDGET SUMMARY

Fresno City College (FCC), with an annual student population in excess of 30,000 , nestled in the central part of the city of Fresno, has the distinction of being the oldest California community college. Since opening its doors in 1910, FCC has been a model for academic and extracurricular activities. Students are afforded multiple educational opportunities at the college including availability of over 100 major courses of study for the achievement of an associate in arts or science degree. Others have found the ever-increasing vocational curriculum with a certificate of achievement and employment opportunities appealing. Additionally, Fresno City College offers training in over 200 vocational/occupational programs.

The college also includes the Career \& Technology Center (CTC), offering open-entry, 20-30 week vocational programs, and The Training Institute, that provides skill-based training to individuals and customized training to local businesses. In November 2002 a $\$ 161$ million Measure E facilities bond was allocated to FCC with $\$ 40$ million to purchase and begin the development of a 120 -acre site for CTC. The police academy, currently at FCC, the fire academy, and vocational and general education
classes at CTC will be relocated to this new site.
The Fresno City College campus includes more than 51 buildings located on 104 developed acres. These buildings comprise approximately 792,000 square feet of space for educational and support programs. Continuous renovations and improvements to existing buildings and grounds have been undertaken for the convenience and access of the college's diverse student population. Examples of these projects include the modernization of classrooms, carpet, paint, and concrete maintenance.

Fresno City College offers a comprehensive program of study. Students have the option of taking introductory to advanced classes in the sciences, humanities, fine and performing arts, social sciences, allied health, and occupational education. These programs are designed to meet the various needs of students: transfer, the workforce, or lifelong learning. The college also offers a variety of student learning support services that assist students in developing the necessary skills for success in the classroom and the workplace.

From athletics to forensics, music and theatre arts
performances to journalism, and Rams Tale literary magazine to student clubs, a robust co-curricular environment serves to enhance the students' educational experience at the college.

The student services area is designed to assist students both academically and personally. Financial aid, counseling, disabled student services, extended opportunity program and services (EOP\&S), health services, psychological services, assessment testing, reentry services, outreach, and other services are available to meet students' varying needs.

The student body is made up of a diverse student population representing various age brackets and ethnic makeup reflective of the greater Fresno community. A wide range of activities and programs encourages participation by our diverse student population. College activities include clubs, student government, athletics, music, theater arts, forensics, publications, and various cultural events. FCC offers a truly comprehensive college environment.

The California economy continues to be a challenge for the budget development process. While the Proposition 30 dollars have restored much of the budget to the previous year's allocation, there is still uncertainty regarding the governor's proposed undesignated apportionment restoration for fiscal year 2013-14. The
governor has indicated that these funds may be used for COLA, workload restoration, or possibly categorical restoration. Until this question is answered the budgeting process cannot be completed for the fiscal year.

The planning processes have increased throughout the institution, budget requests with a primary focus on the Board stated priority goals of a technology vision for the future, program reviews, student success, strategic enrollment management, and re-envisioning the future of the district.

Following is a 2013-14 budget summary by object for Fresno City College:

## REEDLEY COLLEGE BUDGET SUMMARY

Reedley College was established in May 1926. In 1956 the college relocated to its current site at 995 North Reed Avenue. On July 1, 1964, the college was united with Fresno City College, to create the State Center Community College District.

In 1980 the name of Reedley College was changed to Kings River Community College and, subsequently, in September 1997 the Board of Trustees restored the name to Reedley College effective July 1, 1998.

Located at the foot of the Sierra Nevada mountain range and bordered by the Kings River, the college offers a unique blend of urban sophistication and rural values. The Reedley community, located 30 minutes from Fresno, is within a two-hour drive of three popular recreational areas: Kings Canyon National Forest, Sequoia National Forest, and Yosemite National Park.

The campus consists of 66 buildings with a total of approximately 409,976 square feet located on 110.8 acres. The campus also includes a 310 acre college farm consisting of prime agricultural land.

Reedley College offers a wide variety of educational opportunities. Students may choose to earn a twoyear associate in arts or science degree, a certificate of achievement or completion, or they may prepare to transfer to a four-year university. Students may also gain career skills by attending one of the college's occupational programs. These programs are designed to give practical training for the careers of today and for the next century. Programs are operated on a 17 $1 / 2$-week semester system consisting of fall and spring terms.

Reedley College provides unique curricula in its land and forestry programs and provides occupational programs, including: computer technology, aviation maintenance, agriculture, mechanized ag, industrial technology, and dental assisting. Reedley College is one of 11 California community college campuses to provide on-campus housing or dormitory living.

Reedley College has created a legacy of serving surrounding communities with quality education and will continue to provide innovation and guidance to maintain its status as a leader in education.

In preparing the 2013-14 budget, communication with the Reedley College faculty, staff, and students continues to be at a very high level to encourage the exchange of information relative to the federal and state economic crisis and to solicit suggestions for revenue enhancement and cost containment opportunities. The budget provides for reasonable access for students to educational opportunities and strives to maintain employment of existing permanent employees.

In addition to comprehensive programs at Reedley College, the college operates several education centers in neighboring communities. The programs are concentrated at the Madera Center and the Oakhurst outreach site.

## Madera Center

The Madera Center has been in operation for 27 years, initially operating at Madera High School. In August 1996 State Center Community College District opened a dedicated site for Madera Community College Center. The center is situated on 114 acres off of Highway 99 on Avenue 12 at the edge of the City of Madera. The initial campus consisted of 24 re-locatable classrooms and a permanent student services building along with a re-locatable classroom
to house the child development learning center and child care related programs.

A permanent 26,000 -square-foot education and administrative building and utility/maintenance facility were completed for the 2000-01 school year. Funding from the 2001-02 state budget act funded the academic village complex completed in January 2004. The 50,000 square feet of classroom, laboratory, and office space includes academic classrooms and offices, as well as components and laboratory space for biology, physical science, chemistry, computer studies, business, art, and a licensed vocational nursing and LVN - RN program. Furthermore, the project provided funding to retrofit the educational/administrative building housing the library, student services, and administrative offices.

As a result of funding from local bond and business donations, a full service physical education program and facilities has been completed, including a fitness center, aerobic center, and softball field complex.

Additionally, the construction of a center for advanced manufacturing opened in fall 2009. The 7,750 -square-foot center supports the maintenance mechanic program and future career technical courses that will address local manufacturing business needs. Madera Center annually serves 4,211 students,
generating a full-time equivalency of approximately 1,740 students per year. The center offers a wide variety of academic, basic skills, and occupational programs and opportunities for students. Utilizing services and course catalogs from its parent institution Reedley College, the Madera Center offers over 515 courses each year in 38 areas of study and gives students a choice of transfer, associate degree, certificates of achievement, and certificates of completion including LVN and LVN - RN programs.

## Oakhurst Center

Oakhurst Center, serving 1,028 students annually and generating a full-time equivalency of approximately 260 students per year, was established as a result of Legislative mandate (Senate Bill 1607). In fall 1996 the campus relocated from Yosemite High School to its current location in the central business district of Oakhurst. In April 1999 the district acquired the 2.7 acres housing the Oakhurst Center campus. The 100 academic and occupational education courses are taught annually in nine re-locatable classrooms.

Included within the site are two distance learning classrooms allowing connectivity to sister campuses at Willow International Community College Center, Madera Center, Reedley College, and Fresno City College. Also included are a science lab, a computer lab, and an open computer lab established in 2008 for student access. Two additional re-locatable classrooms and a restroom were added to the Oakhurst site in summer 2009.

Following are budget summaries by object for the 2013-14 fiscal year for Reedley College and Madera and Oakhurst Centers:

## WILLOW INTERNATIONAL COMMUNITY COLLEGE CENTER BUDGET SUMMARY

In addition to comprehensive programs at Fresno City College and Reedley College, the district operates education centers in neighboring communities. The largest of these programs is located at the Willow International Community College Center.

In 2003, in response to the tremendous growth in the northeast area of Clovis and Fresno, the Board of Trustees completed the acquisition of approximately 110 acres for a permanent site located at Willow and International Avenues across the street from the Clovis Unified School District's third education center.

The first phase of Willow International Community College Center was opened for the fall 2007 semester. Funding for the 80,000 -square-foot academic center facility in the amount of $\$ 50.0$ million was provided through local and state bond funds. Facilities include an open computer lab, additional computer laboratories, a multi-media studio, art studio, physics and waste water treatment laboratories, forum hall, distance learning, and traditional classrooms and offices. Also included with the initial phase were a
bookstore, internet café, and utility/maintenance facility.

Additionally, the phase I facilities include a state-of-the-art childhood development center. Through collaboration with the Clovis Unified School District and State Center Community College District, matching funds were secured through the AB 16 California Joint Use Facilities legislation. The $\$ 6.0$ million facility was also opened in the fall 2007 semester and is used as a toddler and pre-school licensed child care laboratory for high school and college students taking child development and preteaching courses.

Academic center phase II was opened in fall 2010 in an 80,000 -square-foot facility. Funding for phase II in the amount of $\$ 38.5$ million was provided through local and state bonds. The facility is located north of the existing academic center and includes allied health and science laboratories, a fitness center, dance room, library/learning resource center, student services, offices, and classrooms.

Tremendous growth has occurred at Willow International Community College Center. Annually, over 8,000 students attend the center, with full-time equivalency students (FTES) of 3,405 per year. Willow International Community College Center offers over 650 courses annually in 50 areas of study and provides students a choice of basic skills, transfer, associate degrees, certificates of achievement, and certificates of completion through the Reedley College catalog and curriculum.

The Willow International Community College Center received candidacy status in March 2013 from the Accrediting Commission for Community and Junior Colleges and may now move forward towards initial accreditation as Clovis Community College. The Willow International Community College Center's Academic Senate was approved by the Statewide Academic Senate in September 2012 as the 113th member senate.

Following is the budget summary by object for the 2013-14 fiscal year for the Willow International Community College Center.

## LOTTERY/DECISION PACKAGES

## Summary

In November 1984 the California electorate approved a statewide initiative authorizing a state lottery program. As part of the initiative, $34 \%$ of lottery proceeds are to be distributed to all public educational entities in the state, including local school districts, community colleges, and state university systems.

Since the inception of the program, there has been a considerable variance in lottery collections and subsequent proceeds to community college districts. These amounts have varied from a high of $\$ 180$ per FTES in 1988-89 to a low of $\$ 84$ per FTES in 1991-92. Although all 2012-13 collections have not yet been received, it is currently anticipated the district will receive approximately $\$ 3.8$ million.

The following chart highlights actual and projected lottery funding rates to the district for the fiscal years 2008-09 through 2013-14, including the highest and lowest years:

In March 2000 the California electorate approved Senate Bill 20 requiring $50 \%$ of any lottery proceed increases from 1997-98 to be spent on instructional materials. Since that time, because of the nature of the district's lottery/decision package program, whereby funds are utilized for one-time allocations largely distributed to the campuses, funding well in excess of this requirement has been expended on instructional materials.

The district utilizes the decision package process through which funds are allocated out of the prior year's proceeds for one-time, non-salary expenses in areas such as staff development, equipment, minor facility improvements, and scheduled maintenance related projects. By allocating resources from the prior year's revenues, the district is able to withstand the variances in lottery collections without overspending its budget. This process has allowed the district to enhance programmatic offerings to meet the needs of students and has provided a funding source for minor facility improvements.

With the state's budget challenges over the past several fiscal years now extending into 2013-14, the district is using the lottery decision packages to not only accomplish the objectives outlined above, but also to offset the impact
of prior year budget reductions to the general fund. The colleges/centers and the district office have prepared decision packages to ensure adequate operational funds are available to meet the stated goals of the district for managed student access and to maintain financial stability. The proposals were approved through fiscal processes at each location with input provided by various employee groups and site representatives.

The decision package proposals have been updated to reflect the current revenue projection of $\$ 3.8$ million plus an additional $\$ 1.1$ million of unspent prior year lottery funds for a total decision package proposal of $\$ 4.9$ million. Following is a summary by site of the recommendations for the 2013-14 lottery/decision package program:

and Accounts

## OTHER FUNDS AND ACCOUNTS

## Introduction

In addition to the general fund, capital outlay projects fund, and the Measure E projects fund, the district operates several additional funds and recognized accounts. Each fund or account is required to account for the corresponding program revenues and expenditures. In general, each budget reflects the maintenance of the existing program or activities operating within the respective area.

Outlined is a brief description of each fund and account as well as changes anticipated for the 2013-14 fiscal year. It should be noted the budgets outlined are based upon projected revenues and expenditures and unaudited beginning balances.

## Cafeteria Fund

The cafeteria fund reflects revenues and expenditures for cafeteria programs operated by the district. In 2013-14 the Reedley College campus will be the only site operated in-house by the district. Cafeteria programs at the remaining sites are all based upon third-party lease agreements. In 2005, the district extended an agreement with Taher, Inc., to 2010 to
operate the FCC cafeteria, FCC catering, and the Madera Center food service program. The Taher agreement for FCC and Madera food service programs is currently administered on a month-tomonth basis. A second restaurant located at the FCC bookstore is provided through Pacific Café with an agreement extended in 2009 to 2014. Food service at the Willow International Community College Center is provided by the Willow International Community College Center Café through a lease agreement entered into in 2002 for the Clovis Center and transferred to the Willow International Community College Center; the agreement is administered on a month-to-month basis.

In accordance with the California community colleges accounting manual, funds generated by lease agreements, including leased cafeteria programs, are accounted for in the district's general fund. The cafeteria fund collects all revenues and expenditures associated with the operation of the Reedley College program. In 2013-14 the Reedley cafeteria program is expected to have revenues of $\$ 635,800$ and expenditures of $\$ 803,840$, resulting in a loss of \$168,040.

## Dormitory Revenue Fund

The dormitory revenue fund is the operating account for the Reedley College residence hall (dormitory) and summer camps. It receives income from room rent, as well as interest and other charges, and pays expenses related to day-to-day operations.

Through Measure E funding, a new residence hall opened in December of 2009 that not only provided a modern residential facility, but also included an upgraded study/computer center and wireless networking for the students. While the dormitory revenue fund is budgeted to make a profit, expenditures outlined do not include all indirect or overhead costs. In 2013-14 the Reedley College dorm is expected to have revenues of $\$ 492,710$ and expenditures of $\$ 437,024$ resulting in a profit of \$55,686.

## Internal Service Funds

The district self-insurance fund is currently used to receive premiums from the general fund and auxiliary operating funds and to disburse payments related to long-term disability claims. The proposed budget thus reflects premiums and operating costs for such operations.

The Other Post Employment Benefit (OPEB) obligation funding issue has gained additional scrutiny in recent years as the obligation has become reportable due to changes in reporting requirements for both private and public agencies with many agencies discovering the imminent obligation against already insufficiently funded retirement programs. The district established a fund at the county to transfer monies to fund its OPEB obligation for retired and current employees.

The governmental accounting standards board (GASB) established statement numbers 43 and 45 related to the OPEB accounting and reporting requirements that mandates state and local governmental entities (including school districts) begin recognizing the OPEB obligation beginning with the 2007-08 fiscal year. The district conducts an actuarial study every other fiscal year to determine its OPEB obligation with the most recent study being prepared as of July 1, 2012. The current study determined the present value of future benefits (PVFB) for retirees and active employees is $\$ 34.5$ million with an actuarial accrued liability (AAL) of $\$ 23.8$ million (discount rate at $5.0 \%$ ). The annual required contribution (ARC) is established at $\$ 2.1$ million. The ARC includes the "pay as you go" portion of the district's current payment for retirees, the subsidized portion for retirees currently utilizing
the district's health plans, and payment for retirees and current employees based upon a 30-year amortization of the incurred, but not funded, cost for retirees and active employees.

GASB 43/45 does not mandate the funding of the OPEB obligation at this time, but does recommend funding the obligation. However, the accreditation standards for community colleges requires us to plan for and allocate appropriate resources for the payment of liabilities and future obligations, including OPEB, compensated absences and other employee related obligations. The State Center Community College District Board began funding the OPEB obligation and transferred funds to a district fund at the county in 2006-07. The Board and administration believed it to be prudent to begin funding the obligation made during previous negotiations to pay for a portion of the employee's retirement health costs. Furthermore, full GASB 43/45 compliance requires the district to deposit at a minimum its' ARC contribution. The Board approved the establishment of an irrevocable trust to be compliant with the GASB 43/45 guidelines. The California School Board Association (CSBA) sponsored program was approved by the Board on August 2007 for the GASB 43/45-compliant irrevocable trust and Public Agency Retirement Services (PARS) was hired by CSBA to be the trust administrator with US Bank to manage the
investments of the trust. Additionally the Board of Trustees formed a Retirement Board with oversight responsibility of the trust and its' investments.

The SCCCD retirement board approved the transfer of $\$ 5.7$ million representing the 2006-07 and 2007-08 ARC payments into the irrevocable trust. The 200809 contribution to the OPEB of $\$ 2.8$ million was transferred to a district fund rather than the irrevocable trust account. For 2013-14 staff is recommending fully funding the existing net OPEB obligation and placing the funds into the irrevocable trust. Therefore, in 2013-14 we will be transferring funds from the district retiree benefits fund to the irrevocable trust to eliminate the existing net OPEB obligation. Secondarily, we will be fully funding the 2013-14 ARC payment with general fund "pay-as-you-go" contributions of approximately $\$ 1.2$ million combined with district retiree benefit funds of $\$ 900,000$ transferred to the irrevocable trust to make up the $\$ 2.1$ million ARC. The irrevocable OPEB trust and district retiree funds contain $\$ 6.8$ million and $\$ 4.8$ million respectively, as of July 1, 2012.

## Bookstore Fund

The budgets for the campus' bookstores reflect the maintenance of existing services in the district, including operation of four retail stores in the district.

The budgets reflect the necessary adjustments to the salary, benefits, and other operating expenses. The bookstore also budgets for the transfer of these funds used to support co-curricular activities. The bookstores are expected to generate approximately $\$ 8.69$ million in revenue with $\$ 8.76$ million in expenditures. The loss is mainly attributed to the reduction in summer school sales. A second textbook rental program will be implemented in the Fall of 2013 anticipating to generate additional sales. In addition a new service will also be implemented at the same time where students will have the option of ordering their textbooks on-line and pick them up in the store 48 hours after the order has been placed.

## Co-Curricular Accounts

The co-curricular expenditure budgets for each campus include provisions for athletics and athletic insurance, forensics, publications, etc. Major funding sources for co-curricular activities at both campuses are from gate receipts for athletic events and transfers from bookstores and campus allocations; in 2013-14 the bookstore budget transfer for campus co-curricular programs will be $\$ 194,400$. These accounts, although operating separately, are actually an extension of the general fund.

## Direct Student Financial Aid Accounts

These accounts have been established at each campus for disbursing direct student financial aid, which consists primarily of PELL Grants, Supplemental Educational Opportunity Grant (SEOG) awards, and Extended Opportunity Programs \& Services (EOP\&S) awards. Funding is provided by the U.S. Department of Education and the State Educational Opportunity Program. Projected expenditures and offsetting revenues are based on the best estimates at this time of approximately $\$ 60.1$ million.

[^2]Capital Outlay
Projects

## CAPITAL OUTLAY PROJECTS

## Introduction

The district operates several components of its capital facilities projects in the capital outlay projects fund. Following is a summary of the various capital outlay programs accounted for.

## State-funded Building Projects

The State of California provides funding for community college facilities expansion and remodeling based upon established criteria. Basically, districts become eligible for state-funded building programs based upon the number of students served and the population growth projections for the service area. Because the state has inadequate funding for meeting the capital facilities needs for education, there is a significant backlog of eligible projects waiting for funding.

## Scheduled Maintenance and Hazardous Substance Projects

In 2003-04, the state began funding scheduled maintenance along with instructional equipment in a block grant format. The funds are allocated based on
actual reported FTES. In 2004-05, the budget added hazardous substances funding to the block grant formula. Unfortunately, since the 2009-10 state budget, no funding has been allocated for scheduled maintenance or hazardous substance projects, which decreases the overall funding available to complete all the projects identified during this fiscal year. The district must continue to maintain its facilities even without state support to ensure the capital investment is not rendered obsolete through years of neglect and, more importantly, to provide a positive learning environment.

Listed are the scheduled maintenance projects locally funded in 2013-14:

1. Replace Boilers - Fresno City College - $\$ 780,000$
2. Clean, Calibrate Switchgear - Clovis - $\$ 10,000$
3. Clean, Calibrate Switchgear - CTC - $\$ 10,000$
4. Clean, Calibrate Switchgear - Oakhurst - $\$ 10,000$
5. Clean, Calibrate Switchgear - Madera - $\$ 35,000$
6. Aero Soffit Repair - Reedley College - $\$ 150,000$
7. Child Development Center Roof Repair - Fresno City College - $\$ 55,000$
8. Replace Chiller \& Cooling Tower at Gym Fresno City College - \$60,000
9. Replace Clocks - Districtwide - $\$ 10,000$
10. Repair Cooling Tower - Madera - $\$ 15,000$
11. Replace Sidewalks/Concrete - Districtwide \$25,000
12. Ratcliffe Handrail Replacement - Fresno City College - \$10,000
13. Asphalt Maintenance - Districtwide - $\$ 500,000$

## 2013-14 Total Project Costs - \$1,670,000

## Measure E

## MEASURE E PROJECTS

## Introduction

In November 2002 voters passed Measure E, a $\$ 161.0$ million local bond measure for the district. The district received $\$ 20.0$ million from the initial bond sale in the summer of 2003. The initial issuance was followed by a second issuance of $\$ 25.0$ million in the summer of 2004, a third issuance of $\$ 66.0$ million in the summer of 2007, and a fourth issuance of $\$ 20.0$ million in the summer of 2009. This leaves a balance of $\$ 30.0$ million yet to be sold from the Measure E program designated for the southeast site.

In March of 2012 the district refunded approximately $\$ 23.8$ million of the earlier issued general obligation bonds to take advantage of the current low interest rates. The bond refunding does not provide savings directly to the district, but it is anticipated to save the district's taxpayers approximately $\$ 2.3$ million over the term of the bonds.

In addition to the Measure E bond funding, the District and Foundation transferred funds to the Measure E Capital Projects Fund to provide the resources needed to supplement the local bond
funding primarily for the Old Administration Building renovation.

Following are a list of the on-going and pending projects, the estimated total project budget, and the current year projected expenditures for Measure E Fund:

1. Old Administration Building, Landscape and Parking, Fresno City College

Total Project Budget - \$588,978
2013-14 Budget - $\$ 338,978$
This funding will landscape the green space west of the OAB and improve the parking north of the OAB. The project will complete in the 2013-2014 fiscal year.
2. Southeast Site, Phase 1

Total Project Budget - \$30,114,737
2013-14 Budget - \$-0-
This project is approved for state funding with a $60 \%$ state match; however, the State needs to pass a statewide bond to provide the resources to be able to move forward on this project. The next opportunity for a statewide bond will be in 2014. Statewide bonds are placed on the ballot in even
numbered years for voter approval. The last statewide bond on the ballot was in 2006, which passed with nearly $57 \%$ support. No bonds were submitted for statewide voter consideration in 2008, 2010, or 2012.
3. Modernization Project, Phase II, Reedley College

Total Project Budget - \$3,506,642
2013-14 Budget - \$300,000
This project will upgrade the network infrastructure by the addition of telecommunication rooms, fiber installation, and data connections.
4. Technology Upgrades, Willow International

Total Project Budget - \$285,010
2013-14 Budget - \$60,000
This project will upgrade technology equipment, including computers, security, paging systems, and software.
5. Technology Upgrades, Oakhurst Center

Total Project Budget - \$60,000
2013-14 Budget - $\$ 25,000$
This project will upgrade technology infrastructure and equipment, including computers, audio visual systems, security, paging systems, and software.
6. Technology Upgrades, Madera Center

Total Project Budget - \$296,000
2013-14 Budget - \$100,000
This project will upgrade technology infrastructure and equipment, including computers, audio visual systems, security, paging systems, and software.
7. Student Center Remodel, Madera Center

Total Project Budget - \$600,000
2013-14 Budget - \$100,000
This project will remodel the cafeteria within the student center along with acoustical upgrades in the large group instructional classroom and minor modifications to the bookstore buyback entrance.

## SUMMARY <br> 2013-14 BUDGET MEASURE E PROJECTS

| Old Administration Building Landscape \& Parking, Fresno | $\$ 338,978$ |
| :--- | ---: | ---: |
| City College (C,FE) | 300,000 |
| Modernization Project Phase 2, Reedley College (C, FE) | 60,000 |
| Technology Upgrades, Willow International (C, FE) | 25,000 |
| Technology Upgrades, Oakhurst (C, FE) | 100,000 |
| Technology Upgrades, Madera Center (C, FE) | $\$ 100,000$ |
| Madera Student Center Remodel, Madera Center (C, FE) |  |

TOTAL
\$ 923.978

## Legend:

Construction (C); Furniture and Equipment (FE)

Allocation: Division or distribution of resources according to a predetermined plan.

Annual Required Contributions (ARC): The employer's periodic required contributions to an OPEB plan.

Apportionment: Federal, state or local monies distributed to college districts or other governmental units according to legislative and regulatory formulas.

Basic Aid Districts*: There are a few districts in which the property tax revenues generated in the district are equal to or greater than the state allocation amount generated through the state apportionment formula. They receive the amount of the revenue generated from local property tax and fee revenues, and are known as "basic aid districts." In 2007-2008, Marin, Mira Costa, and South Orange County fell into this category.

Budget Document: A written statement translating the educational plan or programs into costs, usually for one future fiscal year, and estimating income by sources to meet these costs.

Budget Act: The legislative vehicle for the State's appropriations. The Constitution requires it be passed by a two-thirds vote of each house and sent to the Governor by June 15 each year. The governor may reduce or delete, but not increase, individual items.

Capital Outlay: The acquisition of or additions to fixed assets, including land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, or equipment.

Categorical Funds: Also called restricted funds, these are monies that can only be spent for the designated purpose. Examples: funding to serve students with disabilities (DSPS) or the economically disadvantaged, low income (EOPS), scheduled maintenance, and instructional equipment.

Contingencies Fund (also Undistributed Reserve): That portion of the current fiscal year's budget not appropriated for any specific purpose and held subject to transfer to other specific appropriations as needed during the fiscal year.

Cost of Living Adjustments (COLA): An increase in funding for revenue limits or categorical programs tied to increases in the cost of living. Current law ties COLAs to indices of inflation, although different amounts may be appropriated by the legislature.

Deficit: The excess of liabilities over assets or the excess of expenditures or expenses over revenues during an accounting period.

Discount Rate: The interest rate used to adjust for the time value of money.

[^3]Disabled Student Programs \& Services (DSPS): Categorical or restricted funds designated to provide services that integrate disabled students into the general college program.

Employee Benefits: Amounts paid by an employer on behalf of employees. Examples are group health or life insurance payments, contributions to employee retirement, district share of O.A.S.D.I. (Social Security) taxes, and worker's compensation payments. These amounts are over and above the gross salary. While not paid directly to employees, they are a part of the total cost of employees.

Ending Balance: A sum of money available in the district's account at year end after subtracting accounts payable from accounts receivable or the difference between assets and liabilities at the end of the year.

Enrollment Cap: A limit on the number of students (FTES) for which the state will provide funding.

Enrollment Fee: Charges to resident students for instructional costs; established in the annual budget act.

Equipment: Tangible property with a purchase price of at least $\$ 200$ and a useful life of more than one year, other than land or buildings and improvements thereon.

Estimated Income: Expected receipt or accruals of monies from revenue or non-revenue sources (abatements, loan receipts) during a given period.

Expenditures: Amounts disbursed for all purposes. Accounts kept on an accrual basis include all charges whether paid or not. Accounts kept on a cash basis include only actual cash disbursements.

## Extended Opportunity Programs and Services (EOPS):

Categorical funds designated for supplemental services for disadvantaged students.

Faculty Obligation Number (FON): The annual figure provided to each district by the Chancellor's Office for the number of full-time credit faculty positions required to comply with $75 / 25$ goals.

Fee: A charge to students for services related to their education. The System Office annually publishes a list of mandated, authorized, and prohibited fees.

Fifty-Percent Law: Requires that fifty percent of district expenditures in certain categories are spent for classroom instruction. The intent of the statute is to limit class size and contain the relative growth of administrative and noninstructional costs.

Financial Stability: Utilization of available resources (revenues) to address the obligations or needs (expenditures) for the current and future periods (multi-year) of the organization.

Final Budget: The district budget that is approved by the board in September, after the state allocation is determined.

Fiscal Year: Twelve calendar months; for governmental agencies in California, it begins July 1 and ends June 30. Some special projects have a fiscal year beginning October 1 and ending September 30, which is consistent with the federal government's fiscal year.

## Full-Time Equivalent Students (FTES): An FTES

represents 525 class (contact) hours of student instruction/activity in credit and noncredit courses, generally 15 semester credit hours. Full-time equivalent student (FTES) is the workload measure used to compute state funding for California Community Colleges.

General Fund: The fund used to account for the ordinary operations of the district. It is available for any legally authorized purpose not specified for payment by other funds.

General Reserve: An account to record the reserve budgeted to provide operating cash in the succeeding fiscal year until taxes and state funds become available.

Governor's Budget: The Governor proposes a budget for the state each January, which is revised in May (the May Revise) in accordance with updated revenue projections.

Indirect Expenses or Costs: The elements of cost necessary in the production of a good or service not directly traceable to the product or service. Usually these costs relate to expenditures not an integral part of the finished product or
service, such as rent, heat, light, supplies, management, and supervision.

Lottery Funds: The share of income from the State Lottery, which has added about 1-3 percent to community college funding. A minimum of 34 percent of state lottery revenues must be used for "education of pupils."

Mandated Costs: Expenditures that occur as a result of (or are mandated by) federal or state law, court decisions, administrative regulations, or initiative measures.

May Revise: The Governor revises his or her budget proposal in May in accordance with up-dated projections in revenues and expenses.

Noncredit: Courses taught for which no college credit is given. Adult education and basic English as a Second Language are two examples. The state reimbursement for noncredit education is less than for credit courses.

OPEB: Other Post Employment Benefits include postemployment healthcare benefits, and all Post Employment Benefits provided separately from a pension plan, excluding benefits defined as termination offers and benefits.

Operating Expenses: Expenses related directly to the fund's primary activities.

Operating Income: Income related directly to the fund's primary activities.

Pay-As-You-Go: A method where a sponsor recognizes plan costs and contributes to a plan equal to the current year's benefit outlay. A sponsor using "Pay-As-You-Go" does not fund for future OPEB payments.

Present Value of Future Benefits: The value, discounted to the valuation date, of all benefits estimated to be payable on or after the valuation date.

Proposition 13: An initiative passed in June 1978 adding Article XIII A to the California Constitution. It provided that tax rates on secure property were restricted to no more than 1 percent of full cash value. Proposition 13 also defined assessed value and required a two-thirds vote to change existing or levy new taxes.

Proposition 39: An initiative passed in 2000 that reduced the voting threshold required for local bonds from two-thirds to $55 \%$ and added conditions for proposing and using bond funds.

Proposition 98: An initiative passed in November 1988, guaranteeing at least 40 percent of the state's budget for K-12 and the community colleges. The split was proposed to be 89 percent (K-12) and 11 percent (CCC), although the split has not been maintained.

Reserves: Funds set aside in the college district budget to provide for future expenditures or to offset future losses, for working capital, or for other purposes. There are different
categories of reserves, including contingency, general, restricted and reserves for long-term liabilities.

Restricted Funds: Money that must be spent for a specific purpose either by law or by local board action. Revenue and expenditures are recorded in separate funds. Funds restricted by board action may be called "designated" or "committed" to differentiate them from those restricted by external agencies. Examples of restricted funds include the federal vocational education act and other federal program funds; state "categorical" programs such as those for disabled and disadvantaged students’ state monies targeted for specific purposes, such as instructional equipment replacement; grants for specific programs; and locally generated revenues such as the health and parking fees.

Retiree Health Benefits: Benefits provided to retirees provide health insurance, negotiated through collective bargaining. Also called "Other Post Employment Benefits."

Revenue: Income from all sources.
Revolving Fund: A revolving cash account used to secure or purchase services or materials.

Shortfall: An insufficient allocation of money, which will require additional appropriations, reduction in expenditures, and/or will result in deficits.

Stabilization Funding: Districts that experience enrollment decline are held harmless for any revenue loss in the year the enrollment decline occurs, and the district is funded to its base enrollment. In the year immediately following the year of decline, the revenue associated with the enrollment decline (stabilization funding) will be reduced from a district's base revenue if the district has not restored the enrollment. (Education Code Section 84750.5)

State Apportionment: An allocation of state money paid to a district on a monthly basis once the state budget is enacted.

## STRS (CalSTRS) California State Teachers' Retirement

System: State law required school district employees, school districts, and the State contribute to the fund for full-time academic employee.

Structural Deficit: Budgeted expenditures exceed budgeted revenues over an extended period of years.

Student Financial Aid Funds: Funds designated for grants and loans to students; includes federal Pell grants, College Work-Study, and the state funded EOPS grants and fee waiver programs.

Sustainability: Utilization of available resources (revenues) to address the obligations or needs (expenditures) of the organization for the current and future periods (multi-year).

Tentative Budget: The budget approved by the board in June, prior to when state allocations have been finalized.

Title 5, California Code of Regulations: The section of the California Administrative Code that regulates community college. The Board of Governors adopts Title 5 regulations.

Unfunded FTES: FTES generated in excess of the enrollment/FTES cap.

Unrestricted Funds: Generally those monies of the General Fund not designated by law or a donor agency for a specific purpose. They are legally regarded as unrestricted since their use is at the Board's discretion.

[^0]:    *Regular Board Meeting
    **Special Board Meeting/Workshop (at Discretion of Board)

[^1]:    ** Use of Restricted Lottery Reserves \$125,000

[^2]:    * Estimated, Unaudited

[^3]:    * In 2011-12 San Mateo County became a Basic Aid District
