SUBJECT:	Consideration to Approve Additional Naming Opportunities for OAB – A Legacy Renewed	ITEM NO. 07-48G
EXHIBIT:	Additional OAB Naming Opportunities	

Background:

In December 2006 the Eaton Cummings Group conducted a feasibility study of the capital campaign for the Old Administration Building (OAB) at Fresno City College. As part of the study, a list of naming opportunities was created by the consultants to provide options for donors to be recognized in the OAB. Since that time, additional naming opportunities have been identified and are being submitted for the Board's approval.

Recommendation:

It is recommended that the Board of Trustees approve the additional OAB naming opportunities, per the attached list.

I. Executive Summary

Introduction

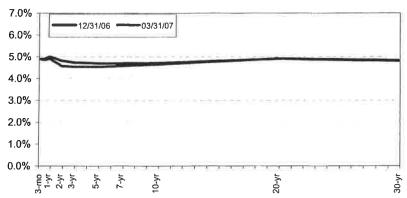

This is the Compliance Review of the County of Fresno's Treasurer's Investment Pool Portfolio for the period ended March 31, 2007, pursuant to California Government Code 53646. The report has two primary objectives: (1) to provide information regarding portfolio holdings as to compliance with California Government Code Sections 53601 and 53635, as well as the County Treasurer's Statement of Investment Policy and (2) to detail portfolio characteristics of the portfolio's investment holdings.

Quarterly Overview of Markets:

During the quarter, the U.S. Treasury yield curve inverted slightly as yields decreased. Yields on shorter and longer-term securities were higher than most intermediate issues.

At both the January and March 2007 meetings, the Federal Reserve kept the federal funds rate unchanged at 5.25%. The Federal Reserve Committee said that recent economic indicators had been mixed and the adjustment in the housing sector is ongoing. However, the Committee believes that the economy will likely continue to expand at a moderate pace over coming quarters. The Committee also stated that growth in federal as well as state and local government spending would remain a source of stimulus for the economy.

As indicated on the previous page, during the first quarter of 2007, yields fell in the short term and intermediate maturities, but slightly increased in the 3-month, 20-year, and 30-year securities. The yield on 1-year Treasury Bonds decreased ten basis points to 4.90%, while the yield on 30-year Treasury Bonds increased three basis points to 4.84%. The spread between the 1-year Treasury and the 30-year Treasury ended the quarter at six basis points, narrowing from fourteen basis points at the end of last quarter. During the quarter, yields on 90-day Certificates of Deposits decreased one basis point, while 180-day maturity yields decreased three basis points. 30-day Commercial Paper maturities fell by one basis point from last quarter.

Portfolio Position

The portfolio maintained a weighted maturity of less than 16 months. The County of Fresno Investment Policy (revised December 2005) Section 11.0 recommends a portfolio of securities with a weighted average maturity not to exceed 550 days. Keeping the portfolio within this maturity range minimized its exposure to potential interest rate shifts that can occur in the mid-maturity sectors of the yield curve. The portfolio was oriented towards high quality, with 58.9% of the portfolio's assets invested in risk-free instruments.

Compliance with California Government Codes 53601 & 53635:

The Investment Portfolio is compliant with the California Government Codes 53601 and 53635.

Compliance with Treasury Investment Pool Statement of Investment Policy:

The Statement of Investment Policy is more stringent than the California Government Code. As of 3/31/07, the Treasurer's Investment Pool portfolio complied with its Statement of Investment Policy.

Please refer to the next section of the report for a more detailed evaluation of the portfolio in relationship to the California Government Code and the Treasurer's Investment Pool Statement of Investment Policy.

Portfolio Characteristics

The Treasury Pool's portfolio characteristics are indicative of a plan exhibiting a high degree of quality with short-term maturities.

- As of 3/31/07, the portfolio had a market value of \$2.1 billion with an average dollar-weighted quality of "AAA."
- Approximately 58.9% of the portfolio's assets are invested in securities with virtually no credit risk (i.e., U.S. Agencies and cash).
- The dollar weighted average life of the pool is 477 days.
- 16.7% of the portfolio at cost matures within 30 days, 35.0% matures within 90 days, and 46.1% within 180 days (see Appendix for further details).

Based on its relative high quality and near-term liquidity, and assuming no significant changes to pool funding policies, the Treasury Investment Pool is well positioned to meet its expenditure requirements over the next six months.

Repurchase agreements are custodied by Bank of New York, which verifies the collateral valuation.

UBS Finanical Services: updated 7/26/06

Repurchase agreements are custodied by JP Morgan Chase Manhattan Bank, which verifies the collateral valuation.

BlackRock Liquidity Funds: updated 05/12/06; prospectus 2/21/07

To determine T-Fund's net asset value per share, the daily valuation of portfolio securities is performed in accordance with BIMC's matrix pricing policy.

BIMC uses a matrix pricing methodology that is based on pricing tiers called matrix codes, and time cells that extend out the yield curve.

The matrix codes represent how a security trades relative to other securities of the same type. Security prices (yields) represent the bid side of the market and are indicative of where Blackrock would expect to be able to sell that security.

Prices of repurchase agreements come from Bloomberg. BlackRock also checks the data against Broker/Dealers who are major participants in specific money market areas. IDC provides prices from Treasury bills, notes, and bonds.

Portfolio valuations are performed daily. Portfolio managers who are members of the matrix pricing team check data for accuracy. This data feeds the fund accounting system that determines the fund's net asset value per share. The variance to a \$1.00/share is noted and reported to the portfolio manager daily.

Depending on market conditions, the number of matrix codes and the spread between tiers may change. BlackRock reviews these factors periodically and change them as conditions warrant.

Fidelity: updated 7/31/06; prospectus 05/30/06

Fidelity performs daily mark-to-market of the holdings in the Fidelity Institutional Money Market Fund: Government Portfolio using IDC as its primary source. In addition, Fidelity manages the Portfolio in strict compliance with the rules and guidelines of Rule 2a-7 of the Investment Company Act of 1940 which governs the credit quality, maturity, and oversight of all registered money market funds.

Bear Stearns: Updated 7/25/06

Consideration to Adopt Resolution

Authorizing Notice of Intent to Establish 2007-08 Appropriations Limit (Gann)

ITEM NO. 07-54G

EXHIBIT:

Resolution

Background:

In November 1979 the voters passed Proposition 4 (Gann), which effectively places an appropriations limit on each public entity within the State. The appropriations limit base was derived from the amount an entity had appropriated in its budget during the 1978-79 fiscal year. The base is annually adjusted upward in accordance with the inflationary allowance relating to the Consumer Price Index, as well as by population increase. Under Senate Bill 1352, enacted by the Legislature to implement Proposition 4, it is necessary that each public entity establish its appropriations limit for a given year prior to the last day of the previous fiscal year. It is further necessary that the governing body provide fifteen (15) days in which the public may examine the documentation used in arriving at the appropriations limit. Further legislation modified the method for computing the limit but the notification provisions remain the same.

The enclosed Resolution is intended to notify the public that the appropriations limit for this District for 2007-08 has been established and will be officially approved at a regular meeting of the Board to be held on July 3, 2007.

Recommendation:

It is recommended that the Board of Trustees adopt Resolution No. 2007-13, Notice of Intent to Establish an Appropriations Limit for the 2007-08 Fiscal Year.

RESOLUTION NO. 2007-13

NOTICE OF INTENT TO ESTABLISH AN APPROPRIATIONS LIMIT FOR THE 2007-08 FISCAL YEAR

WHEREAS, on November 6, 1979, the People of the State of California adopted Proposition 4, the Gann Initiative, which added Article XIII B to the State Constitution; and

WHEREAS, said Article and Section 7900, et seq., of the Government Code require this Board to establish, by Resolution, at a regular or special meeting, its appropriations limit for the 2007-08 fiscal year; and

WHEREAS, said Article and Section 7900, et seq., of the Government Code further require this Board to notify the public at least fifteen (15) days prior to the holding of such meeting.

NOW, THEREFORE, BE IT RESOLVED as follows:

- 1. The public is hereby notified that at 4:30 p.m., on July 3, 2007, the governing board of the State Center Community College District will hold a meeting at 1525 East Weldon Avenue, Fresno, California, to establish its appropriations limit for the 2007-08 fiscal year.
- 2. The public is further notified that the documentation used in the determination of said appropriations limit is available to any person who wishes to examine or inspect the same, either prior to, during, or after said meeting.
- 3. The Chancellor of this District or his designee is hereby directed to post a copy of this Resolution at least fifteen (15) days prior to July 3, 2007, in order to inform the public of the matters contained herein.

The foregoing Resolution was adop	pted upon motion of Trustee,
seconded by Trustee, a	t a regular meeting of the Board of Trustees of the
State Center Community College District	on this 5th day of June, 2007, by the following vote,

PRESENTE	ED TO BOARD OF TRUSTEES	DATE: June 5, 2007	
SUBJECT:	Consideration to Authorize Year-end Balancing Transfers, 2006-07 Fiscal Year	ITEM NO. 07-55G	
EXHIBIT:	None		

Background:

Education Code Section 85201 authorizes districts to make year-end transfers to balance the major object accounts (i.e., certificated salaries, classified salaries, etc.) prior to closing the books for the fiscal year. The administration has identified areas of the 2006-07 budget where transfers will be required. It is necessary for the Board of Trustees to authorize year-end balancing transfers to more accurately reflect actual revenues and expenditures incurred during the fiscal year.

Recommendation:

It is recommended that the Board of Trustees authorize year-end balancing transfers for the 2006-07 fiscal year.

Background:

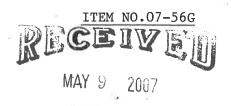

The District is in receipt of a claim submitted on behalf of David Claypool, M.D., and Heidi Claypool. The Board is asked to take action in accordance with the Government Code. The Board must reject the claim where there is a question of District liability and the amount of the claim is disputed. The claim has been submitted to the JPA and its Claims Administrator for defense coverage.

Estimated Fiscal Impact:

Unknown

Recommendation:

It is recommended that, in accordance with established procedures, the Board of Trustees reject the claim submitted on behalf of David Claypool, M.D., and Heidi Claypool and direct the Chancellor or Vice Chancellor, Finance and Administration, to give written notice of said action to the claimants.

CLAIM FOR DAMAGES Attachment 1

A. Provide your description of how the Accident/Incident/Loss/Occurred:

Circumstances: On April 16, 2007 at approximately 2:00 p.m., Mr. and Mrs. Claypool were riding their bicycles along the bike trail in a northbound direction on the west side of Willow Avenue as stated. Dr. Claypool was in the lead on his bicycle and both claimants were wearing their bicycle helmets and sunglasses. Dr. Claypool first entered the bicycle/pedestrian tunnel immediately followed by Heidi Claypool. The tunnel was dark and no overhead lights were functioning. The tunnel had light posts on either side and had an open sump pump/drain with jutting rebar. Dr. Claypool braked his bike and hit the open sump pump/drain and was caused to be catapulted forward onto the cement/asphalt surface. Mrs. Claypool skidded her bike and came to a stop before the unguarded opening. Dr. Claypool suffered injuries and damages as a result and Mrs. Claypool suffered emotional distress and loss of consortium.

B. Describe Damage/Injury/Losses being claimed (including prospective damage/injury/losses to the extent it is known at the time of claim filing):

Damages: The damages suffered by Claimants are as follows:

a. David Claypool, M.D.:

Dr. Claypool was taken to Saint Agnes Medical Center immediately following the subject accident. He sustained multiple fractures to his left elbow which required complex surgery by orthopedists, Toby Johnson, MD., and Cary Tanner, M.D. Dr. Claypool had injuries to both upper extremities. He is currently off work as an emergency room physician at St. Agnes Medical Center.

We do not possess the medical records and billings as yet, but they will be forwarded as soon as received.

b. Heidi Claypool:

Heidi Claypool is the wife of David Claypool and was riding behind him when the subject accident occurred. She suffered severe emotional distress in seeing her husband injured and will suffer and is suffering loss of consortium.

C. Name(s) of Public Entity/Employee(s) causing injury, damage or loss:

Contentions: Claimants, David Claypool, M.D., and Heidi Claypool contend as of the presentation of this claim that the following constitutes the general nature of the dangerous and defective condition of public property pursuant to Government Code §§835(a) and 835(b). It

should be noted that additional work will be performed on this file and we expressly reserve the right to make additional amendments to this claim and/or to our pleading as the law permits:

- 1. The signing of this roadway/trail was improper and substandard. In fact, there was no signing. As this case progresses there may very well be further contentions as to specific signing that should have been in place but suffice it to say that we contend the signing was inadequate and constituted a dangerous and defective condition at this area of the roadway.
- 2. The roadway/trail was improperly delineated and contained virtually no warning of the dangerous condition and was not barricaded or blocked off from bicycle/pedestrian traffic.
- 3. This area of roadway/trail was inherently dangerous and defective as evidenced by many previous accidents or near accidents at the same location both preceding and subsequent to the Claypools' accident. This in and of itself is both actual and constructive notice upon the public entity involved pursuant to Government Code §§835(a) and 835(b).

We further contend that the above mentioned areas of dangerous condition of public property legally caused the subject accident. In particular, among other things, the signing and lack of signing, delineation and lack of delineation, lack of warning signs, lack of barricading/blocking the roadway to ingress and egress by bicyclists and pedestrians were all legal causes of this bicycle accident. You should hereby further be advised that we hereby incorporate all areas of dangerous and defective condition as outlined above in this allegation.

Jurisdiction over the claims of DAVID CLAYPOOL, M.D., and HEIDI CLAYPOOL would rest in the Superior Court.

The District has been awarded a grant from the California Community Colleges Chancellor's Office to establish an Agricultural Trade Assistance Program (ATAP) Hub. The purpose of the ATAP Hub is to enhance strategic alliances with other service providers to serve additional food and agricultural exporters as well as increase international trade. The Grant Agreement is for the period March 6, 2007, through February 29, 2008, with funding in the amount of \$121,000.

Recommendation:

- a) authorize the District, on behalf of the Center for International Trade Development, to enter into a Grant Agreement with the California Community Colleges Chancellor's Office to establish the Agricultural Trade Assistance Program (ATAP) Hub for the period March 6, 2007, through February 29, 2008, with funding in the amount of \$121,000;
- b) authorize renewal of the Agreement with similar terms and conditions; and
- c) authorize the Chancellor or Vice Chancellor, Finance and Administration, to sign the Agreement on behalf of the District.

Consideration to Approve Lease of

Temporary Bookstore Building, Willow/International Center ITEM NO. 07-63G

EXHIBIT:

None

Background:

With construction of the permanent Bookstore/Foodservice facility at the Willow/International Center not scheduled for completion until December 2007, it will be necessary to offer temporary bookstore services at the Willow/International site. The administration has identified a short-term solution that requires placement of a 24' x 60' portable building adjacent to the location of the permanent facility. By utilizing this temporary building, Bookstore staff will be able to offer book sales and other services to students on site and prior to the start of the fall semester. This portable building will be removed upon completion and occupancy of the permanent facility.

In past years, the Board of Trustees has approved the lease and/or procurement of portable classrooms by piggybacking a valid, cost-effective contract available for use in the State of California. The administration has currently identified a contract with William Scottsman, Inc., through a bid with the Beardsley School District, as an advantageous solution for this project. This contract offers competitive short-term pricing with the advantage of quality product, timely delivery and as-needed relocation services.

It is anticipated that the cost to lease the portable building necessary for the temporary Bookstore will be approximately \$28,000.00, including an increase of the floor load capacity to accommodate book storage. Funding for this project will be provided by Bookstore Enterprise Funds.

Fiscal Impact:

Estimated at \$28,000.00 – Bookstore Enterprise Funds

Recommendation:

It is recommended that the Board of Trustees authorize the lease of a temporary Bookstore building and other services from William Scottsman, Inc., utilizing the Beardsley School District bid, and authorize purchase orders to be issued against this contract.

Public Hearing and Adoption of 2007-08 Budget

Background:

The Personnel Commission held a public hearing regarding their proposed budget for 2007-08 during its meeting on May 29, 2007. Following the Public Hearing, the Personnel Commission approved a budget of \$391,499. This represents an estimated increase of \$49,300 from the 2006-07 budget. There is an \$8,800 increase in testing costs and an estimated \$40,500 increase in mandated personnel costs.

According to Education Code the Personnel Commission will forward their adopted budget (\$391,499) to the County Superintendent of Schools for action. The District may object or challenge the Personnel Commission budget by submitting its objection to the County Superintendent of Schools proposes to reject the budget as submitted by the Commission, he shall, within 30 days after the Commission's submission of the budget, hold a Public Hearing on the proposed rejection within the affected District. He shall have informed both the Commission and the Governing Board of the date, time and place of the hearing. He may after such Public Hearing either reject, or, with the concurrence of the Commission, amend the proposed budget. In the absence of agreement between the Personnel Commission and the County Superintendent, the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the Commission.

The Personnel Commission will be forwarding a budget of \$391,499 to the Fresno County Superintendent of Schools, and this amount will be included in the District's budget.

Recommendation:

It is recommended that Board of Trustees direct the Chancellor to notify the Fresno County Superintendent of Schools that there will be no objection to the State Center Community College District Personnel Commission budget of \$391,499 for the 2007-08 fiscal year.

The staffing structure approved in the 2006-07 budget has been implemented and the four (Director, Human Resources Analyst, Personnel Technician and Administrative Secretary I) positions are filled. The Personnel Assistant remains vacant at this time. It is not anticipated that the Assistant would be filled for 2007-08.

The District Finance Office computes the figures for the salaries and benefits. This information (in its latest iteration) will be added prior to the presentation to the Board of Trustees on June 5, 2007. The current projections show \$342,199, a 13.5% increase in mandated personnel costs based on the district's contractual obligations.

The dollars recommended for non-personnel items would increase, primarily in testing. This past year we were able to upgrade our testing services, particularly in the area of technology, using exam modules online.

*We also jointly purchased (with the academic personnel budget) applicant tracking software which includes an online application, web based interest cards and functionality that will allow eligibility list and reports to be generated much more efficiently. There is ongoing technical support for that system included in the proposed budget.

This results in a total budget for 2007-08 of \$391,499. This is an overall increase of 13.8%.

EXHIBIT:	Tentative Budget Document			

Background:

The 2007-08 Tentative Budget for the General Fund, Other Funds and Accounts, Capital Outlay Projects Fund, and Measure E Projects Fund is presented for Board approval. The Budget was discussed at the Board Retreat on March 17, 2007, and is based upon the Governor's January Budget Proposal.

There were no significant changes from the Governor's January Initial Budget Proposal to the most recent May Revise Proposal. It is believed the State Center Community College District Tentative Budget, as presented, is a fair representation of the Final Budget which will be adopted by the District in September. One difference between the January Initial Budget Proposal and the most recent May Revise Proposal reflects an increase in COLA from 4.04% to 4.53%, which is primarily offset by labor agreements with the various union and employee groups calling for a salary increase equivalent to COLA, as funded by the State.

The May revise included \$194.7 million in one-time funding, as opposed to the \$42.0 million proposed in January, with \$244.7 million currently being proposed by the State Senate. The funding levels for these one-time allocations will be different in the Final Budget from any of the current proposals. The District has traditionally not used these one-time funds to develop the Tentative Budget since the allocations will change during the political processes between the Assembly, Senate and Governor over the summer. These funds have not been included in the Tentative Budget but will be added to the District's Final Budget in September as legislated at the State level.

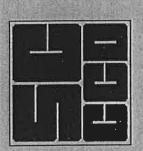

The District's Tentative Budget, as submitted to the Board for approval, is balanced and represents the funding as proposed by the Governor in the January Initial Budget Proposal. All indications from the State are that the 2007-08 Budget may be another late budget approval sent to the Governor past the Constitutional date for State budget adoption

ITEM NO. 07-44 – Continued Page 2

Under law it is necessary that the Board of Trustees approve a Tentative Budget prior to June 30. Any adjustments necessitated by adoption of the State Budget Act after June 5, 2007, will be included in the Final Budget scheduled for review and adoption on September 4, 2007

Recommendation:

It is recommended that the Board of Trustees approve the 2007-08 Tentative Budget, as presented at the meeting.

2007-08 BUDGET OVERVIEW

Introduction

One of the most significant responsibilities of a community college district is the preparation and presentation of the annual budget. A district's budget not only serves as a planning document for the ensuing school year, reflecting the goals and priorities, but also serves as a report to our constituents regarding the utilization of available tax dollars and other funding sources. The State Center Community College District administration is confident that the enclosed budget documents reflect the effective utilization of financial resources to meet the educational goals of our District.

State Budget Overview

In January 2007 Governor Schwarzenegger presented his proposal for the State's 2007-08 Budget. The District's Tentative Budget has been developed utilizing the January Budget Proposal since the May Revise will not be received in time to make changes to the Tentative Budget prior to adoption on June 5, 2007. The Legislative Analyst's Office has stated the Governor's January Budget Proposal will still leave the State with a \$2 billion budget revenue shortfall in 2006-07 and 2007-08 combined. This shortfall results

from over estimating tribal gaming revenue by \$306 additional expenditures from Prop. 98, and an developed using a 10% growth factor from the generation of local property taxes statewide. This growth is highly unlikely considering the housing currently proposed is jeopardized. In 2002-03 the in funding with no backfill from the State. The million, legal challenges to the issuance of \$525 million in pension obligation bonds, \$825 million in arbitration ruling involving correctional officers. In addition, the Community College System budget was market slowdown; hence, the System budget as it is current property tax effect could be equally over projections resulted in more than a 1% shortfall devastating to our local budget should the projected increase not materialize. Considering all aspects of the proposed budget, community college funding per FTES would increase \$176 in on-going funds for 2007-08. The Governor's Budget provides a 4.04% COLA for base apportionment and selected categoricals, 2% for growth and a 2% growth funding increase for selected categoricals. The Governor also included \$42.0 million in one-time funds for three programs: career technical educational equipment, a Nursing initiative

and CalPass. The proposal maintains student fees at the current level of \$20 per unit.

based upon the Governor's January 2007 Proposed Revise, is not expected until after the June 30, 2007, as presented, represents a fair evaluation of the State colleges when these issues are worked out and the there be significant changes when the Final State The District's Tentative Budget is being formulated Budget information. The significant issue remaining in the State Budget for the Community College changes. The Final 2007-08 State Budget, which State-adoption deadline; thus, the Tentative Budget, anticipated there will be some changes for community State Budget is finalized. The District will make adjustments to its adopted Tentative Budget should System and the State is the economic slow down in the state. The May Revise is expected to be presented on May 14 and will contain only minor budgetary generally has differences between it and the May Budget until a Final Budget is adopted. Budget is adopted.

Major components of the Governor's January 2007 Budget Proposal under which the District's Tentative Budget has been prepared include the following:

\$5.8 billion is and The State has many challenges to reaching this allocation. It must overcome overly optimistic bargaining issues. The greatest concern to the COLA from the 2006-07 fiscal year and the challenges to bonding, and employee estimation of statewide property tax revenues (2005-06 at \$1.8 billion; 2006-07 at \$1.86 COLA and growth from 2007-08 into the base. revenue estimates in gaming revenues, legal Community College System is the over billion; with 2007-08 estimated at \$2.05 billion, or a 10% increase compared to 3% in the prior includes folding growth, equalization, proposed for the base apportionment. Base Apportionment year) SCCCD Impact – The District is very cautious about this funding level. As of this date, a detailed analysis has not been fully developed of the impact of pending litigation, the over

estimation of property tax revenues, and other revenue resources that appear to be questionable at best. Until such an analysis and the Final Budget are presented considering such shortfalls, the District's budget may well be overstated, as will all district's in the Community College System that rely on the Legislature and Governor to ultimately develop a fiscally prudent 2007-08 Budget. The P-1 report for 2006-07 indicated the current year would be fully funded, with a note that \$53.1 million, or almost 10% of the general apportionment to districts, is stabilization funding for FTES decline in the System.

COLA – \$224.9 million in funding has been budgeted for COLA. The statutory COLA is 4.04% and is being applied to the General Apportionment and to the following programs: Basic Skills and Apprenticeship, Matriculation, DSP&S, EOP&S and CARE. If this funding is compared to the property tax increase of \$197.2 million dollars and the perceived over estimate, the System could see a significant shortfall in

funded COLA or a deficit to the overall funding of State apportionment.

SCCCD Impact – State Center will receive COLA, which represents a \$4.5 million increase to the District's overall general operating budget with increases to the specified categorical programs stated above. These COLA increases are included in the Tentative Budget and detailed in the following narrative.

Growth – \$109.1 million has been budgeted for growth. This represents an estimated 2% increase in projected FTES statewide. The Community College System has had significant growth challenges since 2004-05 with a decline in funded FTES in 2005-06 and restored FTES from prior-year losses accounting for the increase in FTES from one year to the next.

SCCCD Impact – State Center Community College District has grown significantly through fiscal year 2004-05. The 2005-06 fiscal year saw growth at less than 0.5% with all indications that the 2006-07 fiscal year

growth will be minimal. The District budget is projected on full funding of a 1.2% growth rate. This translates into an estimated \$1.4 million increase to the District's base apportionment, which has been allocated to the Colleges, Centers, and District Operations to cover increased operating costs for new staff, salaries, benefits, operational costs and growth.

Part-time Faculty Compensation – \$50.8 million for the continuance of part-time faculty compensation to be paid on a full-time-equivalent basis. This allocation remains the same as in 2006-07.

SCCCD Impact – Based upon State allocations, the District will continue to receive an estimated \$1.1 million in 2007-08. Final appropriation for this category is passed on to part-time faculty, resulting in a \$0 increase in discretionary funding for the District.

Part-time Faculty Office Hours and Health Insurance – \$8.2 million to partially fund partime faculty office hours and health insurance

to be determined on a voluntary basis by each district. This allocation remains the same as in 2006-07.

SCCCD Impact – Because the programs have not been fully funded, the District has historically declined to participate in the programs, resulting in a \$0 impact.

CalWORKs – \$43.6 million for statewide CalWORKs Programs. This proposed allocation remains the same as in 2006-07.

SCCCD Impact – Based upon a prorated share of CalWORKs funding, it is estimated that the District will receive approximately \$1.1 million. This funding remains the same as in 2006-07.

Matriculation - \$134.4 million statewide for Matriculation-related services up from \$95.5 million in 2006-07. This allocation has increased by COLA and growth of approximately 4.04% and 2.0%, respectively, plus a \$33.1 million funding augmentation with

two required focuses. From the \$33.1 million, \$14.0 million is directed at additional core Matriculation and \$19.1 million is targeted at counseling services to help assess career options, evaluate aptitudes and form an academic plan of study for at-risk students, including tutoring.

SCCCD Impact – Based upon a prorated share of Matriculation funding, it is estimated that the District will receive \$1.8 million in 2007-08, which is an increase from \$1.73 million received in 2006-07. An estimated \$660,000 is provided for the additional services as required by the funding augmentation. The 2007-08 Tentative Budget has been prepared considering the increase in COLA only. The proposed \$660,000 funding augmentation has not been included in the 2007-08 Tentative Budget.

Instructional Equipment and Library Materials, Hazardous Substances and Scheduled Maintenance and Repair – \$27.3 million statewide for the three programs.

Projects eligible for funding in any of the three programs identified may be funded from these funds along with the District funding match requirement. The three categories each had a separate funding basis until the 2003-04 State Budget Act when the allocation was cut from the 2002-03 funded level of \$106 million to \$29.3 million. The funding is now allocated as a block grant to districts and is distributed to the various categories at the district's discretion. The 2006-07 funding level was \$27.3 million.

SCCCD Impact – The District is allocating \$350,000 to Scheduled Maintenance and Repair projects and \$300,000 towards Instructional Equipment and Library Materials funding. This funding remains the same as in 2006-07.

Student Financial Aid Administration – \$51.3 million to provide funding for Student Financial Aid Administration. The 2006-07 funding level was \$52.6 million.

SCCCD Impact – Unknown. This funding source is based upon eligible student criteria and, therefore, actual funding is unknown. The District received \$1.3 million in 2006-07. The 2007-08 Tentative Budget has been prepared at the 2006-07 funding level pending adoption of the Final State Budget.

Extended Opportunity Programs and Services (EOP&S) and CARE – \$119.8 million statewide for EOP&S and CARE. This program increased in funding by COLA (4.04%) and growth (2.0%) from a 2006-07 funding level of \$112.9 million.

SCCCD Impact – Based upon a prorated share of EOP&S and CARE funding, it is estimated that the District will receive \$2.98 million in 2007-08, which is an increase from the \$2.86 million received in 2006-07. The 2007-08 Tentative Budget has been prepared considering the increase in COLA only.

Disabled Students Programs and Services – \$114.5 million statewide for DSP&S. This

program increased in funding by COLA (4.04%) and statutory growth (2.0%) from a 2006-07 funding level of \$107.9 million.

SCCCD Impact – Based upon a prorated share of DSP&S funding, it is estimated that the District will receive \$1.80 million in 2007-08, which is an increase from the \$1.73 million received in 2006-07. The 2007-08 Tentative Budget has been prepared considering the increase in COLA only.

One-Time Funding – \$42.0 million for various identified programs: \$32.0 million is designated for Career Technical Education Equipment; \$9 million is designated for five new nursing programs to assist with start-up costs (\$5.0 million) and the development of four regional clinical simulation laboratories (\$4.0 million); \$1.0 million is designated for the CalPASS program.

SCCCD Impact – Based upon the District's share of the State's \$40.0 million allocation to the System in 2006-07 for Career Technical, the

District may receive up to \$750,000 but the funding has not been included in the Tentative Budget. The Final Budget will be adjusted accordingly. It is anticipated the other one-time funding will be provided on a competitive basis following the budget adoption during the summer.

Local Issues - Merit District Costs

Currently, State Center Community College District is one of six merit districts in the California Community College System. As such, the law is very prescriptive regarding the employment of classified employees, as well as the recruitment process for said employees. For 16 years the District operated under rules adopted by the Personnel Commission, which allowed the utilization of "extra help" employees. During 2001 it was determined that utilization of extra help was, in part, inconsistent with merit district regulations; therefore, the Personnel Commission directed the District to transition out of the utilization of extra help by replacing these positions with permanent part-time, full-time, or limited-term employees. Due to the number of classified positions affected and the

significantly greater cost of permanent employees, it was originally projected that the transition from extra help to a more-permanent classified employment force would cost approximately \$6.5 million in categorical and noncategorical monies. Because it was simply economically unfeasible to make this magnitude of a transition in one year, both in the labor force and available dollars, the District and Personnel Commission agreed to implement a three-year transition plan in compliance with Merit System regulations. After several poor budget years the District was finally able to implement the third and final year of the transition plan with the 2006-07 budget.

2007-08 Outlook

The final outlook of the Governor's State Budget remains uncertain since the State's Final Budget has not yet been adopted. Further complicating the State Budget development process is the Legislative Analyst's analysis that there will continue to be a multi-billion-dollar deficit between revenue and expenditures over the next several years.

There has been speculation regarding the timing of the State Budget. All the politics aside, it is evident that College System. With 40 of the System's 72 districts some level of decline in 2006-07, it is education and the community college sector continue to make gains with the January Budget Proposal. disproportionate per-student funding allocation when compared to other California higher education systems, but great strides have been made with the full implementation of equalization funds during 2004-05, 2005-06 and 2006-07. Student growth continues to be the challenge for the Community evident that the System and each district must re-evaluate their programs and outreach services to determine the best method to reach all potential Local community colleges still receive showing

2007-08 Goals

Following are the goals established by SCCCD for the 2007-08 fiscal year and the significant changes included in the Tentative Budget:

- Continue to fund current, permanent academic and classified employees.
- Develop a GASB 43/45-compliant investment program.
- Continue to evaluate and increase classroom efficiencies (students per full-time faculty [WSCH/FTEF]).
- Develop student recruitment plan(s) which enhance the District/Colleges/Centers enrollment results in recruiting new students to a College or Center.
- Develop student retention plan(s) for the District/Colleges/Centers which increase the retention rate for each College or Center.
- Analyze and maximize the use of technology to more effectively deliver instruction, student services, and business services to students.
- Continue to develop and implement the recommendations of the accreditation teams

and planning agendas in the Colleges' Self Studies.

- Develop and adopt a new District Strategic Plan which, by design, will be an annually updated three-year plan which will provide for review, modification and development of renewed District goals, objectives and direction for the District/Colleges/Centers so that the needs of the community and students can be better met.
- Review and revise the occupational programs at all Colleges/Centers to meet the identified labor needs of the service region.
- Continue to finalize construction documents, obtain DSA approvals and bid Phase 1 of the Modernization Project(s) at Reedley College.
- Continue the implementation of a Capital Facilities Program for the \$161.0 million in funds from the successful passage of a General Obligation Bond (Measure E) in November 2002. The District has thus far had two bond issuances for a total of \$45.0 million. A third

issuance of \$66.0 million is scheduled to be sold in the summer of 2007.

- Continue the analysis and implementation of programs to enhance the Fresno City College and Reedley College position on the Accountability Report for Community Colleges (ARCC) as prescribed by the State Chancellor's Office (AB 1417).
- Complete the final portion of the Willow/International Phase I construction program (food service and bookstore building).
- Continue the development of construction documents and prepare to bid Willow/International Phase 2. This project was funded from the November 2006 Statewide Bond as a 50% match and is scheduled for completion in 2010.
- Continue to evaluate and modify as needed the District's diversity programs, including staff development and recruitment.

- Continue with the external capital donor campaign for the Old Administration Building (OAB) auditorium renovation project.
- Obtain Division of State Architect approval of construction documents for the OAB and begin the demolition and construction phase of the OAB rehabilitation project.
- Obtain DSA approval of the drawings and bid the occupational shop facility at the Madera Center.
- Review programs/services/outcomes and modify/update the following areas as necessary for each College and Center:
- Career and Occupational Education
- Transfers and Degrees
- Enrollment Management
- Shared Governance Procedures
- Business Partnership and Outreach

2007-08 Budget Summary

The January Budget Proposal contains many unknowns and challenges which must be addressed prior to the final passage and signing of a 2007-08 State Budget. The items below detail in general concerns of the Community College System, as developed by the Legislative Analyst's Office or District staff in review of the budget:

- the District's slow down in FTES growth;
- the Governor's 10% growth projection for the System's property tax growth when prior-year growth has been at 3%;
- over estimation of the revenue from several sources but most specifically Indian Gaming;
- revenue shortfall of \$2.0 billion for 2006-07 and 2007-08 combined; and
- legal challenges to the issuance of pension obligation bonds.

The Governor and Legislature continue to demonstrate a commitment to public education and the California Community College System. There is also continued commitment demonstrated for other important programs, such as DSP&S, EOP&S, and Matriculation by including funding for COLA and statutory growth in these programs.

While there remains tremendous uncertainty and the possibility of changes occurring during the legislative process before the adoption of the State Budget Act, the System is encouraged by the Governor's, Senate's and Assembly's commitment and the strong support to fund the System in the Governor's budget proposal.

State Center Community College District has been successful in maintaining its financial stability and integrity and will continue to do so. With a General Fund budget of approximately \$160.6 million and a total budget in excess of \$237.0 million, including

\$24.6 million in capital expenditures (capital outlays and Measure E projects), the District recognizes the importance of its role as a shareholder in the educational opportunities of its various constituency groups. The District further recognizes the importance of assisting the communities in the economic development needed to provide employment opportunities and prosperity for the region

As you review the District's budget documents, you will see that all funds proposed are balanced and that the District has positioned itself to continue to offer quality programs and services. As Chancellor for the State Center Community College District, I am pleased to present the District's 2007-08 Tentative Budget document, which I believe is developed with proper consideration for modifications to the State Budget proposals while still remaining educationally and fiscally responsible to our constituents and to you, the taxpayers.

BUDGET CALENDAR

The timelines and requirements for publication and availability of a community college district's budget are specifically outlined in the California Code of Regulations. These requirements include the schedule for adoption of a district's Tentative Budget on or before July 1 and subsequent adoption of a Final Budget prior to September 15. In addition, a public hearing must be held prior to the adoption of the Final Budget with appropriate publication in a local newspaper making the proposed budget available for public inspection.

The Tentative Budget, due July 1, is based upon the Governor's January 2007 proposed budget. Information regarding the May Revise is not anticipated until the week of May 14 and thus will not be available for the development of the 2007-08 Tentative Budget which is scheduled for adoption on June 5, 2007. Should the May Revise substantially alter the budget, the changes will be discussed as part

of the Tentative Budget presentation. The District's Final Budget is subject to change following the final adoption of the 2007-08 State Budget by the Legislature and signature by the Governor. The District's Final budget will represent the State Budget Act for 2007-08.

The process of developing a community college district budget is an ongoing function and must be addressed by the Board and administration throughout the school year. In order to effectively develop a fiscal document that reflects the goals and objectives of the District, the budget process must include a well-defined Budget Calendar, outlining when each component of the budget is to be completed and the responsibility for completion.

The following Budget Calendar for preparation of the 2007-08 Budget was adopted by the Governing Board at its February 6, 2007, meeting:

The mission of the State Center Community College District is to provide quality, innovative, and accessible educational programs and services that enhance student learning and global citizenship.

District Organization

State Center Community College District expects to provide educational services to more than 35,000 students on its seven campuses. An organization of this size must have a well-defined structure in order for it to operate successfully on a day-to-day basis. The District is administered by a seven-member Board of Trustees, who are elected to four-year terms on an at-large basis, representing specific areas within the District. The following organizational structure is in effect for the 2007-08 school year:

In 1988 the California voters approved Proposition 98, an initiative that amended Article XVI of the State Constitution and provided specific procedures to determine a minimum guarantee for annual K-14 funding. The Constitutional provision links K-14 funding formulas (which include community colleges) to growth factors, including State revenues and student population. These various factors determine the percent of the State of California budget which is dedicated to K-14 education.

Funding Models Under SB 361 of 2006

Under SB 361 a district will receive a Foundation Grant for each college or center of varying amounts based upon the size of the college and center. The Foundation Grant amount is augmented by a per-FTES funding level. The apportionment calculation

components of the Foundation Grants and per-FTES funding level are adjusted each year by the following:

- COLA (cost of living adjustment)
- . Stability (for districts experiencing decline)

Growth in the proposed model becomes simply the estimated new FTES of the district times the per-FTES funding level.

Student Fees

The amount of enrollment fees and other student-related fees is strictly controlled by the State of California. Fees increased from \$11 to \$18 in 2003-04 and from \$18 to \$26 in 2004-05. This amount was not changed for fall semester 2006-07 but was reduced to \$20 beginning January 1, 2007. The \$20 per unit fee remains unchanged for 2007-08 as currently being proposed.

Based upon these 2006-07 figures the \$1,191 in fees for the next lowest state was 73% more than the California Community College System fees of \$690.

The national average for community college tuition for the same period was \$2,481, more than two-and-one-half times the amount charged by California community colleges. With the 2007-08 student fees per unit dropping to \$600 in 2007-08 and the supposition that other states will at a minimum maintain the 2006-07 fee level, California has the lowest fee per unit in the national community college system per the Governor's Budget Highlights.

California's Community Colleges - Efficient and Effective

The California community colleges represent an outstanding financial and educational value for the largest and most diverse student body in the world. Based upon 2006-07 budget information provided by the California Postsecondary Education Commission (CPEC), the Community College System revenue is \$5,501 for instruction per full-time-equivalent student, 50% of the same expenditure as the California State University System's cost of \$11,004 and 26% of the University of California System's cost of \$21,365. This maximization of educational resources allows the State to serve more students and to preserve more resources for other important services.

INSTRUCTION-RELATED REVENUES PER FULL-TIME-EQUIVALENT STUDENT (2006-07)

Source: California Postsecondary Education Commission

Not only does the System provide a high level of cost effectiveness, but California's community colleges continue to excel in all areas of the System's mission. In 2005-06 13,462 Community College System students transferred to UC; 52,642 transferred to CSU; 28,314 transferred to other four-year institutions and 135,479 (04-05) community college students were transfer prepared (56+ units with 2.00 GPA within six years of entry in the System). Community college transfer students earn grade point averages at universities at a level comparable to students who enroll as freshmen at CSU or UC.

In 2005-06 CSU awarded 69,350 undergraduate degrees. Of these 38,365 or 55.3% were awarded to students who attended community colleges. Of the 41,640 undergraduate degrees awarded at UC, 11,883 or 28.5% were awarded to students who attended community colleges.

The mission of the California Community College System and related responsibilities and expectations have expanded to not only meet academic and vocational education needs but also to play an active role in the economic development activities and communities and to serve as a leader in the societal transition from welfare to work.

While the community colleges have been among the most-effective and efficient higher education systems in the world, additional resources are needed to maintain the high level of service to the state's population. Several challenges for the future exist for the System, including providing the necessary resources to meet the growing responsibilities of the System to educate the people in California in an everchanging state, national, and world environment.

Summary

Because the amount of funding available for community colleges is relatively low, the corresponding expenditures providing the cost of education are likewise lower than comparative educational institutions.

In 2006-07 the State Budget was passed by the legislature and signed by the Governor which equalized the funding to community college districts so the lowest funded district would be at the 90th percentile level of funding. This funding model for community colleges, equalized and simplified the funding to districts in the California Community College System. This increase in funding community college districts did little to bring into balance the revenue received by the CSU and UC Systems.

STUDENT GROWTH TRENDS CALIFORNIA COMMUNITY COLLEGE DISTRICTS

The California Community College System, consisting of 72 districts and 109 colleges, currently serves approximately 2.5 million students as new or continuing credit enrollment.

Because a significant majority of a community college's funding is based upon full-time-equivalent students (FTES), it is important to understand growth trends both in the System and at SCCCD.

California Community College Enrollment and FTES Trends

Over the past five years the California Community College System has undergone some significant changes. In school year 2001-02 the total number of FTES for the system was 1.11 million. The 2006-07 First Principal Apportionment Report (P-1) rose to 1.14 million or 3.0% in the five-year period.

During the past three years from 2005 to 2007 the growth trend for the System has been very flat, having grown by 32,000 FTES or 2.9% for the three-year period. It is important to note the System in 2006-07 reduced its budget request for growth funding from 3% to 2% after seeing the growth trend continue to be

low and has requested a continuation of the 2% FTES growth request for the 2007-08 State Budget.

SCCCD FTES Trends

The State Center Community College District has, during this same time period, worked diligently to maintain FTES growth at a level higher than that of the statewide numbers. During this same five-year period, SCCCD grew from 23,742 FTES to 26,083 FTES or 9.9%.

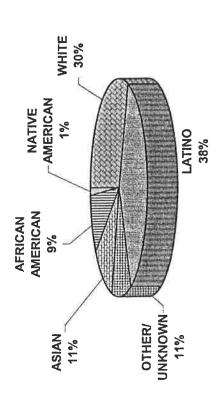

The District also experienced some flattening of growth in FTES similar to that of the System. District growth for the past three years from 2005 to 2007 has been 1,287 FTES or 5.2% for the three-year period ending with the P-1 report of 2007. Over the past five years and the most recent three years, the District has been able to out pace the State in FTES growth even when considering the decline in 2006-07. The Tentative Budget has been developed based upon the 2006-07 P-1 Report submitted to the State Chancellor's Office, a recapture of all lost FTES between 2006 and 2007 fiscal years and a modest 1.2% growth in FTES. The Tentative Budget will be continually evaluated and updated as the Final Budget is being developed. One area of concern that will be

addressed as the budget development process proceeds is the apparent lack of FTES growth in enrollment numbers for 2007-08. Since FTES is the single largest factor in generating revenue, the budget will be adjusted to ensure the State Center Community College District Final Budget is balanced and represents the best evaluation of revenue and expenditures for the District at the time of adoption.

Student Population

The geographic area served by the State Center Community College District represents a significantly diverse population. Following are graphic displays of the makeup of the District's student population:

projections available at the time, which will include based upon four primary factors: (1) the rate of for 2006-07. Although this appeared to be a viable projection when developing the parameters in March, Budget will be adjusted to represent the most current FTES data for the summer and enrollment data for the The Governor's 2007-08 proposed State Budget (2%) statewide. Because the District has experienced significant FTES growth over the past five years (9.9%), it is becoming

2002-03 and the continued shortfalls and cuts into FTES were funded. This is compared to 2001-02, 2002-03, and 2003-04 which funded only 71%, 75% Community College System has experienced growth highly unlikely the District can sustain a level of to a number of factors, the greatest of which are the tremendous cuts in budgets sustained by the System in mid-year budget cuts and property tax shortfalls of 2003-04. The State Center Community College provided reasonable compensation packages to its employees. In 2004-05 the level of growth in the system slowed to the point that 100% of all generated and 65% of all generated FTES Systemwide. The since 2004-05 averaging less than 1.0%. Although increasingly more difficult to achieve increased growth. After reviewing the initial reports, it seems growth at the 2% level. Furthermore, with unemployment rates down and K-12 enrollments growing at less than 1% statewide, the challenge to grow in FTES is even greater. This can be attributed 2002-03 and 2003-04, which included the devastating District weathered this dramatic drop in funding better than many districts in the System. The District continued to service students in excess of the State-funded cap until 2004-05 and District's

2005-06 FTES growth was about 0.6% and for over the past few years. The challenge continues to further planning is needed, this focused analysis has and will benefit the District, Colleges and Centers in the development of an effective and accountable and implementation of modified recruitment and the enrollment and FTES numbers with the SCCCD had substantial FTES growth in 2004-05, its 2006-07 appears to be in decline slightly less than 1.0%. It has become obvious that SCCCD is not immune to the growth problems faced by the System be for the Colleges and Centers of SCCCD to grow and discover previously non-traditional student with Noel-Levitz, a consulting firm specializing in assisting college districts in the analysis of their student recruitment and retention programs. STATE CENTER COMMUNITY COLLEGE DISTRICT BUDGET SUMMARY

State Center Community College District, formed July 1, 1964, serves more than 45,000 unduplicated students per year on its six campuses. The District comprises approximately 5,580 square miles, servicing the greater Fresno area, including Fresno County, Madera County, and a portion of Kings and Tulare Counties. The District encompasses 17 high school and unified districts. SCCCD is one of 72 community college districts in the State of California and includes two of the 109 colleges, as well as three centers and other community-based offerings.

In addition to the two community colleges of Fresno City College and Reedley College, the approved three educational centers and two outreach centers as well as a number of community outreach programs in non-District-owned facilities are all governed by and comprise the State Center Community College District. Each campus has a distinct and unique identity as well as specialized program offerings. The District offers higher education opportunities to thousands of students who might otherwise be unable to attend classes beyond the high school level. Associate of Arts and Science Degrees are offered in a wide variety of subjects, as well as many vocational programs.

The District serves a population area in excess of one million residents characterized by a lower-than-state-average income and socio-economic makeup. These demographics create unique challenges to the State Center Community College District in meeting the needs of its ever-expanding student base. State Center looks forward to continuing to meet the needs of its growing and diverse service area.

The District Offices, including the Operations Department, are located adjacent to the Fresno City College campus in Central Fresno. Several Districtwide operations are located at the District Offices, including Human Resources, Business, District Information Systems Services, Construction and Maintenance and Operations.

The District is governed by a seven-member Board of Trustees elected from six trustee areas. Regular Board meetings are held at 4:30 p.m. on the first Tuesday of the month in the District Board Room located at 1525 East Weldon Avenue, Fresno.

DISTRICT OFFICE/OPERATIONS BUDGET SUMMARY

The District Office provides many administrative and delivery services available to the various campuses of the State Center Community College District. In addition to the central administration, the District Office provides all personnel/human resources functions, management information systems/data processing functions, purchasing services, accounting and payroll functions, legal services, curriculum coordination, public relations, and coordination of District grants and Foundation activities.

In 1996-97 the operations services, including maintenance, grounds, police, construction, transportation, warehouse, utilities, and safety, were reorganized into centralized services. The purpose of the reorganization was to better service the various

District sites, to become more cost effective by utilizing personnel and coordinating contracts and outside purchases, and to provide greater consistency in programs for the various campuses, as well as the community at large. The District Operations Department includes 63 full-time employees in the budget, as well as the utilization of part-time staff, to provide the services outlined above.

The District Office/Operations budget includes personnel and operational costs to provide delivery of the various services to the District campuses.

Following is a budget summary by object for the 2007-08 fiscal year for the District Office/Operations:

REEDLEY COLLEGE BUDGET SUMMARY

Reedley College was first established in May 1926. In 1956 the College relocated to the current site at 995 North Reed Avenue. The College was united with Fresno City College on July 1, 1964, to create the State Center Community College District.

In 1980 the name of Reedley College was changed to Kings River Community College and, subsequently, in September 1997 the Board restored the name of the College to the original Reedley College effective July 1, 1998.

Located at the foot of the Sierra Nevada Mountain Range and bordered by the Kings River, the College offers a unique blend of urban sophistication and rural values. The Reedley community, located 30 minutes from Fresno, is within a two-hour drive of three popular recreational areas: Kings Canyon National Forest, Sequoia National Forest, and Yosemite National Park.

The campus consists of 66 buildings with a total of approximately 407,000 square feet located on

110.8 acres. The campus also includes an additional 310-acre college farm consisting of prime agricultural land.

of Achievement, or they may prepare to transfer to a four-year university. Students may also gain their career skills by attending one of the College's to give practical training for the careers of today and 18-week semester system, consisting of fall and spring terms, as well as summer sessions. In addition to the main campus located in Reedley, 11 satellite campuses under the Reedley College program are located in: Fresno (Sunnyside High School), Clovis, year Associate in Arts or Science Degree, a Certificate occupational programs. NORTH CENTERS BUDGET SUMMARY

In addition to comprehensive programs at Fresno City College and Reedley College, the District operates several Education Centers in neighboring communities. The most significant programs are concentrated at four Centers located in Madera, Clovis, Oakhurst and Fresno.

Madera Center

The Madera Center has been in existence for over 20 years, initially operating at Madera High School. In August 1996 the State Center Community College District opened a dedicated site for the Madera Community College Center situated on 114 acres. The original development comprises approximately 25 of the 114 acres. The Madera campus is located on Avenue 12 just east of Highway 99 at the edge of the City of Madera. The initial campus consisted of 25 relocatable classrooms which housed various academic and occupational programs, including a child development learning center. It also included a permanent student services building.

A permanent 26,000-square-foot education and administrative building and a utility/maintenance facility were completed for the 2000-01 school year.

Funding from the 2002 State Budget Act funded the Academic Village Complex completed in January 2004. The 50,000 square feet of classroom, laboratory, and office space includes academic classrooms and offices, as well as components and laboratory space for biology, physical science, chemistry, computer studies, business, art, and a Licensed Vocational Nursing Program. The project also provided funding to retrofit the educational/administrative building to house the library, student services and administrative offices.

As a result of funding from the local bond and business donations, a comprehensive physical education program and facilities are being completed, including a fitness center and a dance/aerobic center. Planning is also underway for occupational labs for the campus with an anticipated date for opening in 2009.

The Madera Center serves 2,500 students, generating a full-time equivalency of approximately 1,300 students per year. The Center offers a wide variety of academic and occupational programs along with various other opportunities for students. Utilizing services and course catalogs from Reedley College,

the Madera Center offers over 360 courses each year in 38 areas of study and gives students a choice of transfer, Associate Degree, Certificates of Achievement, and Certificates of Completion. The first cohort of the Licensed Vocational Nursing Program completed the 18-month Certificate program in May 2004.

It is anticipated that the Madera area will continue to be one of the fastest-growing population centers in the Central Valley and will, therefore, continue with its facilities expansion and student growth.

Clovis Center

Located east of the City of Fresno along Herndon Avenue, the Clovis Center is located in the community of Clovis on seven acres of land. The site serves 4,500 students and generates a full-time equivalency of approximately 2,300 students per year. The Center is located in two permanent buildings with more than 42,000 square feet, along with five relocatable classrooms and a science laboratory. The Clovis Center offers over 575 courses annually in 39 areas of study and gives students a choice of transfer, Associate Degrees, Certificates of Achievement, and Certificates of Completion. Clovis is a suburb of the City of Fresno and is home to approximately 83,000 people. The community is characterized by rapid

growth and has a well-defined community spirit. The Clovis Center provides students similar opportunities as to those available at any college campus in the District. It truly provides a place of opportunity and education to meet the needs of the ever-expanding Clovis and north Fresno communities.

Willow/International Center

and International Avenues, south of the Clovis The new Center will serve the northeast session of 2007. Funding for the 80,000-square-foot academic and office facility in the amount of \$50 million is being provided through local Measure E and State bond funds. The facilities in this building include an open computer lab, computer laboratories for instruction, a multi-media studio, art studio, physics and science laboratories, a forum hall, distance learning and traditional classrooms, as well as space for a library, student services, and administrative operations and offices. Phase 1 also includes a 6,600-square-foot bookstore/foodservice In response to the tremendous growth at the Clovis Center, the Board of Trustees in 2003 completed the acquisition of approximately 110 acres for a permanent site located at the intersection of Willow Fresno/greater Clovis area. The first phase has been completed and will offer classes during the summer Unified School District Third Education Complex.

relocatable building, as well as a 5,000-square-foot utility building.

Phase I facilities additionally include a cooperatively funded 12,000-square-foot Early Childhood Education Center. This project was funded through a unique agreement between the State Center Community College District, the Clovis Unified School District and the State Office of Public School Construction under the AB 16 California Joint Use Facilities legislation. The \$6 million facility will open in the fall of 2007 and will be used as a licensed child care laboratory for high school and college students taking Child Development and Pre-teaching courses.

Plans are now being developed for Phase 2, an 84,000-square-foot facility at the Willow/International site, which will include allied health and science laboratories, a fitness center, exercise room, library/learning center, student services, offices and classrooms. This project is scheduled for completion in 2010. Phase 2 is funded through a 50% State Chancellor's Office facilities funding match program where the State and Measure E each fund \$19.25 million towards this \$38.5 million project.

Oakhurst Center

In April 1999 the District acquired the current 2.731 acres housing the Oakhurst Center campus. Acquisition of this property indicates the commitment of the District to meet the area's higher education needs. The District has developed a Master Plan for expansion of current facilities, which will allow for additional parking and will double the current facility's square footage in future years.

for County events which may either be held in the into a small campus setting. One classroom is part of Madera County. The classroom is operated by the District with Madera County owning the classroom building and having the right to utilize the classroom its current location in the Central Business District of relocatable classrooms, including a science lab, a computer lab and distance learning classrooms, as well as traditional classrooms, which are organized a collaborative project serving both the District and 250 students per year, was established as a result of Legislative Mandate (Senate Bill 1607). In Fall 1996 the campus relocated from Yosemite High School to Oakhurst. The 2007-08 programs will operate in nine The Oakhurst Center, serving over 500 students and generating a full-time equivalency of approximately area or broadcast to the classroom via the internet.

The Center remains connected through its distance learning classrooms to other locations and campuses throughout the District. This connectivity allows students the opportunity to complete their general education, Associate Degrees and transfer courses at the Oakhurst Center.

Eastern Madera County is a rapidly expanding area with a current population of approximately 30,000. It is anticipated the Center will continue to grow to meet the needs of this ever-expanding community.

Following are budget summaries by object for the 2007-08 fiscal year for the North Centers (Madera, Willow/International, Clovis, and Oakhurst):

2007-08 LOTTERY/DECISION PACKAGES

Summary

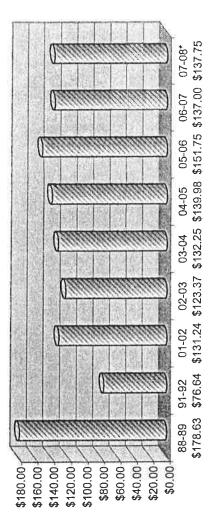

In November 1984 the California electorate approved a statewide initiative authorizing a State Lottery Program. As part of the initiative, 34% of the lottery proceeds are to be distributed to all public educational entities in the state, including local school districts, community colleges, and state university systems.

Since the inception of the Program, there has been a considerable variance in lottery collections and subsequent proceeds to community college districts. These amounts have varied from a high of \$178 per FTES in 1988-89 to a low of \$76 per FTES in 1991-92. Although all 2006-07 collections have not yet been received, it is currently anticipated that the District will receive approximately \$4.0 million.

The following chart identifies lottery proceeds to districts since 1988-89 and reflects the variances in proceeds from year to year:

CALIFORNIA STATE LOTTERY

Per FTE Allocations and Estimates 1988-89 through 2007-08

*Projected

In March 2000 the California Electorate approved Senate Bill 20 requiring 50% of any lottery proceed increases from 1997-98 to be spent on instructional materials. Since that time, because of the nature of the District's Lottery/Decision Package Program whereby funds are utilized for one-time allocations largely distributed to the campuses, funding well in excess of this requirement has been expended on instructional materials.

The District utilizes the decision package process whereby funds are allocated out of the prior year's proceeds for one-time, non-salary expenses in areas such as staff development, equipment, minor facility improvements, and scheduled maintenance-related projects. By allocating resources from the prior year's revenues, the District is able to withstand the variances in lottery collections without overspending its budget. This process has allowed the District to enhance programmatic offerings to meet the needs of students and has provided a funding source for minor facility improvements.

In establishing these decision package projects, the Chancellor called for development of proposals from each College/Center and the District Office. The proposals were approved through channels at each location with input provided by various employee groups and site representatives.

The decision package proposals have been updated to reflect the most current revenue projection of \$4.0 million. Following is a summary by site of the recommendations for the 2007-08 Lottery/Decision Package Program:

OTHER FUNDS AND ACCOUNTS

Introduction

In addition to the General Fund, the Capital Outlay Projects Fund, and the Measure E Projects Fund, the District operates several additional funds and recognized accounts. Each fund or account is required to account for the respective program revenues and expenditures. In general, each budget reflects the maintenance of the existing program or activities operating within the respective area.

Outlined below is a brief description of each fund and account, as well as any changes anticipated for the 2007-08 fiscal year. It should be noted that the budgets outlined in the attached document are based upon projected revenues and expenditures and unaudited beginning balances.

Cafeteria Fund

The Cafeteria Fund reflects revenues and expenditures for Cafeteria programs operated by the District. In 2007-08 the Reedley College campus will be the only

site operated in-house by the District. Cafeteria programs at the remaining sites are all based upon third-party Lease Agreements. In 2005 the District extended to 2010 the Agreement with Taher, Inc., to operate the FCC Cafeteria, FCC catering, and the Madera Center food service program. A second restaurant located at the FCC Bookstore is provided through Pacific Café with an Agreement extended in 2004 to 2009. Food service at the Willow/International Center is being provided by Condie Cafeteria through a Lease Agreement entered into in 2002 for the Clovis Center. The Agreement is currently being reviewed and updated for the Willow/International Center.

In accordance with the California Community Colleges Accounting Manual, funds generated by Lease Agreements, including leased Cafeteria programs, are accounted for in the District's General Fund. Revenues for the operation of these programs for 2007-08 are anticipated to be \$36,000.

The Cafeteria fund collects all revenues and expenditures associated with the operation of the Reedley College Program. In 2007-08 the Reedley Cafeteria Program is expected to have revenues matching expenditures in the amount of \$892,600.

Dormitory Revenue Fund

The Dormitory Revenue Fund is the operating account for the Reedley College Residence Hall (Dormitory) and summer camps. It receives income primarily from room rent, as well as interest and other charges, and pays expenses related to day-to-day operations.

It should be noted that, while the Dormitory Revenue Fund is budgeted to break even in 2007-08, expenditures outlined in the attached budget do not include all indirect or overhead costs. Because of other alternatives for student housing surrounding the Reedley campus and the continuing deterioration of the Dormitory facility requiring increased maintenance, it is becoming increasingly difficult to meet operating expenses for the facility.

The \$161 million bond measure, approved by the voters in November 2002, allotted \$8.9 million for the Dorm project. In 2004-05 the process of designing

and constructing the new Dorm began. The District will continue to operate the existing Dormitory, making any improvements necessary to maintain a quality-of-life program, as well as any financial adjustments, in order to minimize the impact on the District's General Fund until the new Residence Hall is constructed.

Self-Insurance Fund

gained additional scrutiny in recent years as the recent reporting requirements for both private and public agencies, with many agencies discovering the repayments and/or Other Post Employment Benefit (OPEB) plans. (Actuarial studies are performed as needed.) The OPEB obligation funding issue has obligation has become reportable due to changes in The District Self-Insurance Fund is currently used to receive premiums from the General Fund and auxiliary operating funds and to disburse payments related to long-term disability. The proposed budget thus reflects premiums and operating costs for such operations. The fund balance includes a reserve for the long-term disability plan and workers' compensation, a small reserve for liability and property damage, and a contingency for PERS

imminent obligation against already insufficiently funded retirement programs.

million with an Actuarial Accrued Liability (AAL) of the District's health plans, and payment for retirees and current employees based upon a 30-year amortization of the incurred, but not funded, cost for million. The ARC includes the "pay as you go" portion of the District's current payment for retirees, the subsidized portion for retirees currently utilizing determined that the Present Value of the Benefits (PVB) for retirees and active employees is \$46.4 Required Contribution (ARC) was established at \$2.8 The District is establishing a fund at the County to transfer monies to begin funding its OPEB obligation to retired and current employees. The General Accounting Standards Board (GASB) has established Statement Numbers 43 and 45 related to the OPEB which mandates that state and local governmental entities (which include school districts) begin recognizing the obligation beginning with the 2007-08 external audit. The District conducted an actuarial study to determine its OPEB obligation in 2006-07 and updated the study for 2007-08. The current study \$31.9 million (Discount Rate at 5%). The Annual retirees and active employees.

GASB 43/45 does not mandate the funding of the OPEB obligation at this time. The staff recommended that the Board begin to fund the ARC obligation and transfer funds to a District fund at the County to begin reducing the unfunded OPEB obligation. In 2006-07 the Board approved the transfer of the ARC to a District fund at the County designated for OPEB. The Board and administration believed it to be prudent to begin funding the obligation made during negotiations many years ago to pay for a portion of an employee's retirement health costs.

Furthermore, full GASB 43/45 compliance requires that the District deposit at a minimum its ARC contribution into an irrevocable trust. The District has conducted a Request for Proposal (RFP) and interviewed four perspective groups with whom a GASB 43/45 irrevocable trust might be established. The groups interviewed were the Community College League of California, Self-Insured Schools of California, the California School Board Association, and Keenan Financial Services. The California School Board Association is the group which has been selected to assist the District in its development and participation in a GASB 43/45-compliant trust.

Bookstore Fund

The budgets for the campus Bookstores reflect the maintenance of existing services in the District. This includes operation of the Bookstores at all five major campuses in the District. The budgets reflect adjustments to salary and benefits, as well as other operating expenses. The Bookstore expenditure account reflects the transfer of these funds. The Bookstores are expected to generate \$9,986,002 in revenue.

Co-Curricular Accounts

The Co-Curricular expenditure budgets for each campus include provisions for athletics and athletic insurance, forensics, publications, etc. Major funding sources for Co-Curricular activities at both campuses are from gate receipts for athletic events and transfers from Bookstores and campus allocations. These accounts, although operating separately, are actually an extension of the General Fund.

In 2007-08 the Bookstore budget transfer for campus Co-Curricular programs will be \$216,000. Additional Co-Curricular funding will be provided through revenues from "pouring rights" (beverage vendor) agreements. The contracts have been reviewed with Fresno City College choosing to contract with Canteen of Fresno to vend multiple product lines, including Coca-Cola and Pepsi products. Reedley College and the North Centers have chosen to remain with Coca-Cola for vending and fountain services.

Direct Student Financial Aid Accounts

These accounts have been established at each campus for disbursing Direct Student Financial Aid, which consists primarily of Basic Educational Opportunity Grant (PELL) awards, Supplemental Educational Opportunity Grant (SEOG) awards, and Extended Opportunity Programs & Services (EOP&S) awards. Funding is provided by the U.S. Department of Education and the State Educational Opportunity Program. Projected expenditures and offsetting revenues are based on the best estimates at this time.

2007-08 CAPITAL OUTLAY PROJECTS FUND

Introduction

The District operates several components of its capital facilities projects in the Capital Outlay Projects Fund. Following is a summary of the various capital outlay programs accounted for in this fund.

State-funded Building Projects

The State of California provides funding for community college facilities expansion and remodeling based upon established criteria. Basically, districts become eligible for State-funded building programs based upon the number of students served and the population growth projections for the service area. Because the State has inadequate funding for meeting the capital facilities needs for education, there is a significant backlog of eligible projects awaiting funding.

In Spring 2002 the Governor and Legislature agreed to place a statewide bond measure on the ballot in both 2002 and 2004. The first bond was approved by the voters in November 2002 as Proposition 47 and provided community colleges \$746 million in general obligation bonds. The second bond (Proposition 55)

was approved by the voters in March 2004 and provided community colleges \$920 million in general obligation bonds. In 2006-07 the District received funding for three projects from Proposition 47 and/or Proposition 55. In 2006 Proposition 1D, which provided \$10.4 billion for K-12 and higher education facilities, was passed by the voters of the state. The Community College System received 40% of the higher education portion of the statewide bond or \$1.5 billion.

Status of SCCCD State-funded Projects

SCCCD is receiving \$19.2 million from Proposition 1D funding for the construction of the second academic building at Willow/International. This is another 80,000-square-foot building housing classrooms, science labs, physical fitness labs, a temporary library and offices. The District is required to match this funding with \$19.2 million from Measure E. The plans have been submitted to the Division of State Architect for review and approval. Construction is expected to start by Spring 2008 with a completion date in 2010.

Scheduled Maintenance and Hazardous Substance Projects

Beginning in 2003-04, the State began funding Scheduled Maintenance along with Instructional Equipment in a block grant format. The funds are allocated based on actual reported FTES. In 2004-05 the budget added Hazardous Substances funding to the block grant format. The District will receive an estimated \$300,000 in State funding for Scheduled Maintenance projects. The District is also required to match the funded amount for a total budget of \$600,000.

Outlined below are the Scheduled Maintenance projects submitted to the Chancellor's Office for approval in the Final Budget Act:

- 1. Reroof Forum Hall Reedley College \$100,000

2007-08 MEASURE E PROJECTS FUND

Introduction

In November 2002 voters passed Measure E, a \$161 million bond measure for the District. The District received \$20 million from the initial bond sale in the summer of 2003. The initial issuance was followed by a second issuance of \$25 million during the summer of 2004. The District is preparing for a third bond issuance of \$66 million during the summer of 2007.

Following is a list of projects and the estimated Measure E expenditures:

- 1. LAN/WAN Phase V, Fresno City College: Total Budget \$1.6 million; estimated expenditures in 2007-08 \$1.2 million for construction, equipment and project management.
- 2. Historic Old Administration Building, Fresno City College: Total Budget \$30.0 million; estimated expenditures in 2007-08 \$10 million for final DSA approvals, hazardous materials removal, demolition, project management and construction.
- 3. Phase 1, Southeast Site: Total Budget \$30.0 million; estimated expenditures for 2007-08 –

\$75,000 for costs related to off-site design development and local approvals and incidental costs related to on-site preliminary planning. The project is scheduled for the State Chancellor's Office Ready Access Approval this year with funding authorized from the Department of Finance from a 2008 statewide bond should one pass.

- 4. Modernization Project, Reedley College: Total Budget \$14.9 million; estimated expenditures in 2007-08 \$2.6 million for design, construction document development, and DSA approvals.
- 5. Student Residence Hall, Reedley College: Total Budget \$8.9 million; estimated expenditures for 2007-08 \$1.5 million for design, construction document development, and DSA approvals.
- 6. Occupational Education Labs, Madera Center: Total Budget – \$3.6 million; estimated expenditures for 2007-08 – \$200,000 for design, construction document development, and DSA approvals.

- 7. Oakhurst Classrooms: Total Budget \$286,000; estimated expenditures in 2007-08 \$156,000 for project management and construction.
- 8. Bookstore/Food Service, Willow/International: Total Budget \$4.5 million; estimated expenditures in 2007-08 \$2.6 million for construction, equipment and project management for the facility.
- 9. Phase 2, Willow/International Center: Total Budget \$39.5 million with \$19.25 million from Measure E; estimated expenditures in 2007-08 \$1.8 million for construction documents and DSA approvals.

PRESENTE	O TO BOARD OF TRUSTEES	DATE: June 5, 2007
SUBJECT:	Consideration to Establish September 4, 2007, as the Public Hearing Date for Proposed 2007-08 Final Budget	ITEM NO. 07-45
EXHIBIT:	None	

Background:

Subchapter 4 of Title 5 requires that community college districts, in addition to adopting a Tentative Budget by June 30, also schedule a Public Hearing prior to the adoption of the Final Budget. The 2007-08 Budget Calendar includes the review and proposed adoption of the Final Budget on September 4, 2007. It is, therefore, appropriate to establish a Public Hearing on September 4 prior to the Board's consideration of the proposed Final Budget.

Recommendation:

It is recommended that the Board of Trustees schedule a Public Hearing for the proposed 2007-08 Final Budget at 4:30 p.m. on September 4, 2007.

PRESENTE	ED TO BOARD OF TRUSTEES	DATE: <u>June 5, 2007</u>
SUBJECT:	Consideration to Authorize Submittal of 2009-2013 Five-Year Construction Plan and Priority Projects	ITEM NO. 07-46
EXHIBIT:	List of Priority Projects	

Background:

The State Capital Outlay Program includes various steps to ultimately receive State approval and funding for capital projects as outlined below:

- District prepares and submits an Initial Project Proposal (IPP) to State Chancellor's Office (by July 1).
- State Chancellor's Office reviews the IPP and approves or rejects the proposal.
- If the IPP is approved, the District is authorized to proceed with the preparation of a Final Project Proposal (FPP) for submission to the State the following year (by July 1).
- The State Chancellor's Office reviews the FPP and approves or rejects the proposal.
- If the FPP is approved, the project will compete with other approved community college FPPs for funding from future statewide education construction bonds. These statewide bond elections are held on even-numbered years when approved by the legislature and governor.

In addition to the submission of IPPs and FPPs, the District is required to annually complete and submit to the Chancellor's Office a Five-Year Construction Plan identifying facility footage, space utilization, and proposed construction projects necessary to meet the enrollment and programmatic needs for the five-year period. The Chancellor's Office also requires that all locally funded projects, including those that will be designed and constructed beyond the current five-year period, be identified and included in this Plan. The construction projects recently completed by the District, such as the Willow/International Center Phase 1, are included on the list of projects, as required by the State, since the project has not yet been placed on the District's inventory at the State level.

ITEM NO. 07-46 – Continued Page 2

Enclosed is a listing of District projects, both State and locally funded, being submitted in the Five-Year Plan.

Recommendation:

It is recommended that the Board of Trustees approve submittal of the Five-Year Construction Plan for the years 2009-2013.

Background:

The State Capital Outlay Program includes various steps to ultimately receive State approval and funding for capital projects, as outlined below:

- District prepares and submits an Initial Project Proposal (IPP) to State Chancellor's Office (by June 1).
- State Chancellor's Office reviews the IPP and approves or rejects the proposal.
- If the IPP is approved, the District is authorized to proceed with the preparation of a Final Project Proposal (FPP) for submission to the State the following year (by June 1).
- The State Chancellor's Office reviews the FPP and approves or rejects the proposal.
- If the FPP is approved, the project will compete with other approved community college FPPs for funding from future statewide education construction bonds on even-numbered years.

The existing Gymnasium Complex was constructed in two phases with the first phase in 1956 and the second phase in 1961. The facility does not provide the instructional and support spaces required to meet the college's academic needs. This project would modernize the lab, lecture, office and support spaces, including HVAC, electrical, data and interior finish upgrades. Accessibility throughout the facility would be improved and relocation of spaces would improve the function of existing programs. Extensive repairs and refurbishment of the Gym swimming pools would also be included in the project. The project would renovate approximately 61,000 gross square feet and 44,000 assignable square feet of interior space at a total estimated cost of \$14.6 million. The Initial Project Proposal would request 100% funding from the State. The first opportunity for funding would be from a 2010 statewide bond. This time schedule is dependent upon a 2008 statewide bond being placed before the electorate of California and approved.

Consideration to Approve Purchase of

ITEM NO. 07-48

Playground Equipment, Child Development

Centers, Willow/International and Madera Centers

EXHIBIT:

None

Background:

With the Child Development Center (CDC) at the Willow/International Center scheduled to open in August 2007, it is necessary to arrange contracting for the purchase and installation of playground equipment and resilient surfacing. Additionally, the play equipment at the Child Development Center at the Madera Center is in need of replacement. Through various site visits and evaluations, CDC staff and administration have identified age-appropriate play equipment manufactured by Landscape Structures, Inc., as having the necessary durability, design and range of activities necessary for both play yards. The cost for this equipment purchase is \$69,060.96 for the Willow/International Center and \$34,724.14 for the Madera Center. This playground equipment is available through an existing contract between the U.S. Communities Government Purchasing Alliance (U.S. Communities) and Ross Recreation Equipment Company, Inc.

Piggybacking this existing contract will allow acquisition from a competitive, cost-effective contract of substantial volume, while meeting the exact standards and design identified by staff and administration. The installation of the play equipment and the resilient surfacing will be by separate contract through the formal bid process. Funding for this equipment purchase will be by the Career Technical Education Fund Grant distributed through the State Chancellor's Office.

Fiscal Impact:

\$103,785.10 – Career Technical Education Grant Funds

Recommendation:

It is recommended that the Board of Trustees approve participation in the U.S. Communities Government Purchasing Alliance (Contract No. 040377) with Ross Recreation Equipment Company, Inc., for the Purchase of Playground Equipment, Child Development Centers, Willow/International and Madera Centers, and authorize purchase orders to be issued against this contract.

PRESENTED TO BOARD OF TRUSTEES		DATE: June 5, 2007
SUBJECT:	Consideration of Bids, Playground Equipment Installation, Willow/International Center and Madera Center	ITEM NO. 07-49
EXHIBIT:	None	

Background:

Bid #0607-29 is for the installation of playground equipment and resilient surfacing at the Willow/International Center and the Madera Center. The equipment to be installed will be ordered through a separate contract by utilizing a U.S. Communities piggyback contract. This bid provides for the removal and disposal of the existing equipment at the Madera Center, assembly and installation of the new play equipment at both sites, furnishing and spreading engineered wood fiber play at both sites, and the installation of poured-in-place rubber safety surfacing at the Willow/International Center. The work of this project will be scheduled to coordinate installation with the delivery of the play equipment and completion of the new facility in August.

Funding for the purchase will be by a combination of the First 5 Grant, funded through the Fresno County Children and Families Commission, and the Career Technical Education Fund Grant, funded through the State Chancellors Office. Bids were received from two (2) contractors as follows:

<u>Bidder</u>	Bid Amount
King Khan Drilling and Construction	\$ 69,263.00
Ross Recreation Equipment Co. Inc.	\$107,709.00

Fiscal Impact:

\$26,048.00 – First 5 Grant Funds \$43,215.00 – Career Technical Education Grant Funds

\$69,263.00 - Total Funding

ITEM NO. 07-49 - Continued Page 2

Recommendation:

It is recommended that the Board of Trustees award Bid #0607-29 in the amount of \$69,263.00 to King Khan Drilling and Construction, the lowest responsible bidder for Playground Equipment Installation, Child Development Centers, Willow/International Center and Madera Center, and authorize the Chancellor or Vice Chancellor, Finance and Administration, to sign an Agreement on behalf of the District.

PRESENTED TO BOARD OF TRUSTEES		DATE: June 5, 2007
SUBJECT:	Consideration of Bids, Interior Casework and Store Fixtures, Willow/International Center Bookstore	ITEM NO. 07-50
EXHIBIT:	None	

Background:

Bid #0607-28 is for interior casework and store fixtures required for the new Bookstore at the Willow/International Center. This bid provides for the construction, delivery and installation of showcases and showcase lighting, service counters, work surfaces, counters, shelving and other related items required to open the new Bookstore facility. The work of this project will be scheduled to coordinate installation with the completion of the facility in December. Bookstore operations will be provided for the fall semester through the placement of a temporary facility adjacent to the permanent facility currently under construction.

Funding for this project will be provided by the Bookstore Enterprise Fund. Plans for this project were pulled by three contractors but due to the specialized nature of the work and the high volume of available bidding opportunities, a single bid response was received. The administration is recommending award of this bid as follows:

Bidder Bid Amount

Fon-Seca Cabinet & Fixture Co. \$98,377.00

Fiscal Impact:

\$98,377.00 - Bookstore Enterprise Fund

Recommendation:

It is recommended that the Board of Trustees award Bid #0607-28 in the amount of \$98,377.00 to Fon-Seca Cabinet & Fixture, Co., the lowest responsible bidder for Interior Casework and Store Fixtures at the Willow/International Center Bookstore, and authorize the Chancellor or Vice Chancellor, Finance and Administration, to sign an Agreement on behalf of the District.
