Items Discussed

The group discussed the Kinesiology gym area and the nursing assistant lab.

Loraine informed the group the nursing assisting program may need to be combined with the pre-nursing program. She is also concerned that the layout still doesn't meet the nursing assisting needs but since none of the nursing assisting instructors were present for this meeting its hard to say. In any case, the kinesiology weight area is close and after the markups are picked up should be adequate.

See attached markups.
